Continuing Professional Development of English Language Teachers Senkamalam Periyasamy Dhanavel, 2022-12-12 This book provides a comprehensive understanding of India's continuing professional development CPD landscape. It examines the issues surrounding the professional development of English language teachers in India at the tertiary level from multiple perspectives. Further, it evaluates various models of continuing professional learning CPL and emphasizes the transformative model as a solution to the social administrative or other impediments teachers encounter in their lives. Importantly, it presents examples solving academic and non-academic problems in formal and informal and face-to-face and technology-mediated forms of teaching and learning by teachers of English in different contexts. It discusses the latest developments in the literature related to the transformative and reflective approach to classroom problems faced by teachers on the ground such as classroom environment, students' socio-economic background, teachers' education and teacher assessment. Also, it positions continuing professional development CPD as having transformative power in teaching English in India and how it can improve students' learning opportunities. The book is relevant to English language teachers, teacher educators and researchers in India and across the globe to address significant issues in the field, how to handle every classroom situation and how to train oneself as a teacher as well as a teacher educator.

Learning english through ICT tools Silvia Sánchez Calderón, 2020-06-01 The present book has been written for teachers and students of English as a second language L2 henceforth and considers the three educational levels namely school, college and university. They will find it as a useful resource since it provides readers with insights, suggestions and approaches to implement the so-called Information and Communication Technology ICT henceforth tools to develop the four language skills namely reading, writing, listening and speaking along with a grammar knowledge. More specifically, this book will contribute to help L2 English teachers in designing creative and motivating lesson plans in which L2 English students will learn English through the use of ICT tools while developing several competences such as the digital competence, the learning to learn that is to say they learn by doing, autonomy and an active role given they are responsible for their own learning. In this student-centred approach, the teacher is a guide and a facilitator of resources. The resources described in this book will foster L2 English teachers and L2 English learning to consider that lesson plans are more effective when the teacher has determined the learning and teaching objectives for both ICT and English. A detailed explanation regarding how each ICT tool functions is provided in the corresponding chapters so that L2 English teachers are able to build sound selection criteria when applying each ICT tool in the classroom.

Digital Archaeology Patrick Daly, Thomas L. Evans, 2004-08-02 The use of computers in archaeology is entering a new phase of unparalleled development moving on from a specialist methodology on the margins to a powerful practical and analytical tool used across all areas of archaeological interest.
