Broken Planet Alpha :

The Galactic Crusade: The Complete Trilogy Pablo Andrés Wunderlich Padilla, What started as a battle to defend freedom from a totalitarian regime will evolve into a full fledged crusade to purge the galaxy Argo Herrero will flee from the claws of the totalitarian regime known as Megaschine to join the immigrant army of the TAS He will survive being cannon fodder to become a high ranking officer He will then become the javelin that will lead the purge of a whole galaxy The Galactic Crusade Trilogy will deliver emotional turmoil twists after twists uncertainty jealousy fear heartache and finally a dogged determination to go down fighting to finally outwit the enemy Includes The First Private The Last Commander The Fallen Ronin *Star Ark* Rachel Armstrong, 2016-11-13 As space ventures have become more numerous leading scientists and theorists have offered ways of building a living habitat in a hostile environment taking an ecosystems view of space colonization The contributors to this volume take a radical multi disciplinary view of the challenge of human space colonization through the ongoing project Persephone This book fundamentally challenges prevalent ideas about sustainability and proposes a new approach to resource austerity and conservation and providing truly sustainable approaches that are life promoting Readers will learn the details of the plans for Persephone a real project that is part of the company Icarus Interstellar s plans for the design and engineering of a living interior on a worldship to be constructed in Earth s orbit within 100 years Although the timeframe itself is only an estimate since it is contingent on many significant developments including funding and technological advances the industry consensus is that within 100 years we will see manned space exploration beyond our solar system This notion is shared by organizations such as the Initiative for Interstellar Studies and the DARPA funded 100 year starship project This book specifically develops the principles for the construction of a living habitat within a worldship a multi generational starship that contains its own world that supports colonists as it travels across great distances between stars at a speed much slower than light Far from being a sterile industrial setup such as the ISS or even being a bucolic suburbia as proposed by Gerard O Neill in the 1970s this worldship will provide the pre conditions for sustaining life beyond Earth s environment which may also lead to the evolution of non terrestrial ecologies Drawing on the principles of ecopoiesis and insights offered by the Biosphere 2 experiment that demonstrated what we have to learn about ecosystem construction this book proposes first designing the soils of such a space It should then be possible to set up the conditions that a first generation of colonists may experience in leaving our solar system to find new worlds to settle perhaps in spreading life throughout the universe Although the book takes a unique view of ecology and sustainability within the setting of a traveling starship it is equally concerned with the human experience on artificial worlds Chapters come from a range of multi disciplinary thinkers who shed light on the brave new future ahead from different angles The Last Commander (The Galactic Crusade Trilogy Book 2) Pablo Andrés Wunderlich Padilla, After ten thousand years of war humanity has obtained its wish crusading the Milky Way My name was Argo Herrero I m now Lynx my code of war Planetary system after planetary

system we've slain all intelligent species once alive in our galaxy. All but one, the last intelligent species left to be purged by our ranks. What will become of us when we've purged the whole galaxy? I don't know, but I'm afraid of what we'll become of what I've already become. [REDACTED]2 shi qingyao, 2024-12-17 With the appearance of the first spaceship and the discovery of hyperspace channel, the distance between galaxies is no longer out of reach. **Interstellar Alphas Series Box Set: Books 1-4** Mandy M. Roth, Interstellar Alphas Box Set Books 1-4 Paranormal Shifter Fated Mate Romance Contains Sevan Bradi Jordan Stegian. Destiny lies along an uncharted course. Genre shifts: paranormal romance, cat shifter, panther, wolf, lion, magic, fae, vampire, alien, other planet, fated mates. *MTD Comics* Michael Dillard, Welcome once again to my universe, eight more stories for you all. We go deeper into the rabbit hole with origins of many characters. Action, adventure, and fantasy from each world. More characters with stories to tell. Sit back and relax for the second installment of stories. Enjoy. [REDACTED]1 shi qingyao, 2024-12-16 With the appearance of the first spaceship and the discovery of hyperspace channel, the distance between galaxies is no longer out of reach. **Matter, Acceleration, Time, and Existence** Paul Reneau, 2012-05-14 Will the physical universe come to an end? When will it happen? What role will time play in the series of events before and after? Do God and Satan exist, and what role, if any, do they play in the demise of the universe? Is there any hope for man, and can his extinction be prevented? The answers to these questions have plagued mankind for millennia. The author takes a novel approach to why the universe will end and details the basis for the single scientific phenomenon that will cause it to come about. The questions posed and many others are answered from both scientific and philosophical points of view in this timely book. Is this book science fiction or scientific certainty? You need to know. This is a must read. Life and the Universe Dr. Peter Altman, 2017-07-15 As astronomers and physicists develop a more detailed map of the universe, questions abound: What and who is beyond Earth and our solar system? This bright book explains the origins of the universe, its development, and scientists' predictions for its future. Related concepts like the possibility of time travel and alien encounters are examined critically so that readers can develop informed opinions and understand what is known and what is left to explore.

Alpha's Promise Rebecca Zanetti, 2019-06-25 To hell and back. Though he has vampire, demon, and Viking blood rushing through his veins, Ivar Kjeidsen's soul-crushing trip to hell broke him in ways he can barely fathom. One vow keeps the deadly immortal standing. To rescue the vampire brother who had sacrificed freedom for him. To do that, Ivar needs the help of a brilliant physicist with wary brown eyes, fierce brilliance, and skin that's way too soft. Dr. Promise Williams understands the underpinnings of the universe but has never figured out the human beings inhabiting it. Her function is to think and not feel until she's touched by a vampire who's nowhere near human. The primal hunger in his eyes awakens feelings in her that defy calculation. As she shows him the way to step between worlds, he brands her with a pleasure that could last more than a lifetime. Spicy romantic interplay, highly recommended. *Library Journal* on Vampire's Faith. Sizzling sex scenes and a memorable cast. *Publishers Weekly* on Claimed. A fast-paced excitement-filled explosion of action. Zanetti keeps getting better.
