The Broken Promise of Agricultural Progress Cameron Muir,2014-06-05 Food and the global agricultural system has become one of the defining public concerns of the twenty first century Ecological disorder and inequity is at the heart of our food system This thoughtful and confronting book tells the story of how the development of modern agriculture promised ecological and social stability but instead descended into dysfunction Contributing to knowledge in environmental cultural and agricultural histories it explores how people have tried to live in the aftermath of ecological imperialism The Broken Promise of Agricultural Progress An environmental history journeys to the dry inland plains of Australia where European ideas and agricultural technologies clashed with a volatile and taunting country that resisted attempts to subdue and transform it for the supply of global markets Its wide ranging narrative puts gritty local detail in its global context to tell the story of how cultural anxieties about civilisation population and race shaped agriculture in the twentieth century It ranges from isolated experiment farms to nutrition science at the League of Nations from local landholders to high profile moral crusaders including an Australian
