Rāmañña Michael A. Aung-Thwin,2017-04-01 Scholars have long accepted the belief that a Theravada Buddhist Mon kingdom R ma adesa flourished in coastal Lower Burma until it was conquered in 1057 by King Aniruddha of Pagan which then became in essence the new custodian and repository of Mon culture in the Upper Burmese interior This scenario which Aung Thwin calls the Mon Paradigm has circumscribed much of the scholarship on early Burma and significantly shaped the history of Southeast Asia for more than a century Now in a masterful reassessment of Burmese history Michael Aung Thwin reexamines the original contemporary accounts and sources without finding any evidence of an early Theravada Mon polity or a conquest by Aniruddha The paradigm he finds cannot be sustained How when and why did the Mon Paradigm emerge Aung Thwin meticulously traces the paradigm s creation to the merging of two temporally causally and contextually unrelated Mon and Burmese narratives which were later synthesized in English by colonial officials and scholars Thus there was no single originating source only a late and mistaken conflation of sources The conceptual methodological and empirical ramifications of these findings are significant The prevalent view that state formation began in the maritime regions of Southeast Asia with trade and commerce rather than in the interior with agriculture must now be reassessed In addition a more rigorous look at the actual scope and impact of a romanticized Mon culture in the region is required Other issues important to the field of early Burma and Southeast Asian studies including the process of Indianization the characterization of classical states and the advent and spread of Theravada Buddhism are also directly affected by Aung Thwin s work Finally it provides a geo political cultural and economic alternative to what has become an ethnic interpretation of Burma s history An electronic version of this book is freely available thanks to the support of libraries working with Knowledge Unlatched a collaborative initiative designed to make high quality books open access for the public good The open access version of this book is licensed under Creative Commons Attribution NonCommercial NoDerivatives 4 0 International CC BY NC ND 4 0

[Making Sense of Tantric Buddhism](#) Christian K. Wedemeyer, 2014-05-06 Making Sense of Tantric Buddhism fundamentally rethinks the nature of the transgressive theories and practices of the Buddhist Tantric traditions challenging the notion that the Tantras were marginal or primitive and situating them instead both ideologically and institutionally within larger trends in mainstream Buddhist and Indian culture Critically surveying prior scholarship Wedemeyer exposes the fallacies of attributing Tantric transgression to either the passions of lusty monks primitive tribal rites or slavish imitation of Saiva traditions Through comparative analysis of modern historical narratives that depict Tantrism as a degenerate form of Buddhism a primal religious undercurrent or medieval ritualism he likewise demonstrates these to be stock patterns in the European historical imagination Through close analysis of primary sources Wedemeyer reveals the lived world of Tantric Buddhism as largely continuous with the Indian religious mainstream and deploys contemporary methods of semiotic and structural analysis to make sense of its seemingly repellent and immoral injunctions Innovative semiological readings of the influential Guhyasamaja Tantra underscore the text's overriding concern with purity pollution and transcendent insight issues shared by all Indic religions and a large scale quantitative study of Tantric literature shows its radical antinomianism to be a highly managed ritual observance restricted to a sacerdotal elite These insights into Tantric scripture and ritual clarify the continuities between South Asian Tantrism and broader currents in

Indian religion illustrating how thoroughly these radical communities were integrated into the intellectual institutional and social structures of South Asian Buddhism **The Archaeology of Early Medieval and Medieval South Asia** Swadhin Sen, Supriya Varma, Bhairabi Prasad Sahu, 2022-11-30 This book looks at the ways in which archaeological methods have been used in debates concerning the early medieval and medieval periods in South Asia Despite the incorporation and use of archaeological data to corroborate historical narratives the theories and methods of archaeology are largely ignored in and excluded from the dominating institutionalized and hegemonic disciplinary discourses The volume offers contesting insights polemical narratives and new data from archaeological contexts to initiate a debate on many foundational premises of archaeological and historical narratives It focuses on the much neglected region of the Eastern Ganga Brahmaputra Basin as a spatial frame to do this and studies themes such as spatial and temporal scales of concepts and methods multi scalar factors and processes of continuity and changes the settlement archaeology of the alluvial landscape changing patterns of agrarian transformation and material cultures including coins inscriptions pottery and sculptures in their contexts in sub regional regional and supra regional intersections Dedicated to historian Brajadulal Chattopadhyaya this volume presents a crucial and unprecedented intervention in the study of the early medieval and the medieval periods It will be useful for scholars and researchers of archaeology ancient history medieval history water history earth sciences palaeoecology historical ecology epigraphy art history material culture studies Indian history and South Asian studies in general
