70 Ways To Generate More Customers

Arlana McCartney, If you were asked what a social network was you d immediately think of Facebook or Twitter You d know that a social network was a way of reaching out to friends You build your list of friends over time Networking works the same for businesses Over time you develop new contacts and customers As the list grows so does your business Your list is a lifeline in many ways It s a way to reach out to new potential customers as well as stay in touch with the customers you have now and making sure they continue to be your customers Just having a list of names and contact information isn t what creating a list is about It s about growing a list of potential customers This requires a bit of creativity and work on your part You not only have to reach out to people but you have to reach out to the RIGHT people Let s say you own a business selling fishing equipment You could probably market your fabulous fishing equipment all you wanted to a girly girl type female whose reply to the question Do you want to go fishing would be Eeeeewwwwww Now if you owned a nail salon you might be able to hook that female It works the same way in reverse You could market your nail salon business and or products all day to the rugged fisherman whose idea of vacation is spending time on a boat with a fishing pole in his hands and your effort would be wasted Building a list of people you could never convert into customers wouldn t do you a bit of good You probably know what a target market is and you know who your target market is You ve studied them and you know what they re looking for You know the type of people you could convert to customers if they had the chance to get to know what your business is all about and see what you have to offer them That s the type of people you re looking for That s the kind of network you need to build to be sure your business is successful Let Us Know What You Think
