Transformational Governance Beth Gazley, Katha Kissman, 2015-07-02. There has never been so much pressure on nonprofit boards of directors to achieve a level of accountability that meets public and stakeholder expectations. Member-serving association boards may be especially challenged by their more complex affiliate structures and a greater emphasis on representative governance. But what does the journey to good governance look like? Markedly different from existing board development books, this modern approach focuses less on the behaviors and qualities of high-performing boards and more on the stages and processes that directors and their staff used to transform their boards. Based on research funded by the ASAE Foundation, the book fills a gap in the governance literature by emphasizing diagnosis and problem-solving using the actual tools and activities implemented by 85 transformed associations. Combining the credibility of scholarly research with lively and compelling stories, tools, and teachable moments, this book is designed to help associations and other nonprofit organizations achieve the entire journey to good governance from first to last steps.

The Brand IDEA Nathalie Laidler-Kylander, Julia Shepard Stenzel, 2013-11-08. Offering a new framework for nonprofit brand management, this book presents the Brand IDEA: Integrity, Democracy, and Affinity. The framework eschews traditional, outdated brand tenets of control and competition, largely adopted from the private sector, in favor of a strategic approach centered on the mission and based on a participatory process, shared values, and the development of key partnerships. The results are nonprofit brands that create organizational cohesion and generate trust in order to build capacity and drive social impact. The book explores in detail how nonprofit organizations worldwide are developing and implementing new ways of thinking about and managing their organizational brands.
