## **A Pocket Guide To Vietnam 1962:**

A Pocket Guide to Vietnam, 1962 United States. Department of Defense, 2011 For many Americans in the early 1960s Vietnam was a far away place of which they had little knowledge Soon thousands of young American men and women would find themselves on the other side of the globe fighting and in many cases living side by side with the Vietnamese To lessen the culture shock the US Department of Defense prepared a publication along the lines of the instructions for servicemen issued in the Second World War This rather unassuming Pocket Guide was designed to instill in the soldier an understanding of and respect for the Vietnamese so as to gain their support In less than 8 000 words the author of the Pocket Guide creates a highly sympathetic account of Vietnam s history culture politics infrastructure geography and people The author stresses shared values common to both the United States and Vietnam Viewed from the intervening distance of four decades this is a fascinating comment on the political aspirations of a former age It remains a compelling introduction to the enduring qualities of Vietnamese culture

A Pocket Guide to Vietnam, 1962 United States. Department of Defense, 2011 For most Americans in the 1960s Vietnam was a faraway land of which they had little or no knowledge Yet soon hundreds of thousands of young American men and women would find themselves on the other side of the globe fighting and in many cases living with the Vietnamese people To lessen the culture shock the Department of Defense prepared A Pocket Guide to Vietnam 1962 a remarkably compact and surprisingly timeless crash course in Vietnamese culture for visitors to this foreign land Republished by the Bodleian Library with original illustrations and a new foreword by Bruns Grayson who served as a US Army captain in Vietnam the Pocket Guide takes the reader on a need to know tour through the culture customs geography and politics of Vietnam Among the straightforward words of wisdom on offer are Don t think Americans know everything and You will fulfill your duty best by remembering at all times that you are in a land where dignity restraint and politeness are highly regarded The Pocket Guide was designed to instill in soldiers an understanding of and respect for the Vietnamese people crucial to the success of the venture and it therefore also sheds further light on the political aspirations of the time Famously controversial the Vietnam War is among the defining conflicts of the latter half of the twentieth century and as such the key battles and strategies have been dealt with in considerable depth But beyond these purely militaristic concerns are the everyday lives of the soldiers who served there A behind the front lines look at a wide range of social situations they might have encountered the book makes for captivating reading for anyone interested in Vietnam and its cultural social political and military history

**Museum and Gallery Publishing** Sarah Hughes,2019-06-20 Museum and Gallery Publishing examines the theory and

practice of general and scholarly publishing associated with museum and art gallery collections Focusing on the production and reception of these texts the book explains the relevance of publishing to the cultural commercial and social contexts of collections and their institutions Combining theory with case studies from around the world Sarah Anne Hughes explores how why and to what effect museums and galleries publish books Covering a broad range of publishing formats and organisations including heritage sites libraries and temporary exhibitions the book argues that the production and consumption of printed media within the context of collecting institutions occupies a unique and privileged role in the creation and communication of knowledge Acknowledging that books offer functions beyond communication Hughes argues that this places books published by museums in a unique relationship to institutions with staff acting as producers and visitors as consumers The logistical and ethical dimensions of museum and gallery publishing are also examined in depth including consideration of issues such as production the impact of digital technologies funding and sponsorship marketing co publishing rights and curators and artists agency Focusing on an important but hitherto neglected topic Museum and Gallery Publishing is key reading for researchers in the fields of museum heritage art and publishing studies It will also be of interest to curators and other practitioners working in museums heritage and science centres and art galleries
