A Practical Companion To Ethics:

A Practical Companion to Ethics Anthony Weston, 2012-05-03 *A Practical Companion to Ethics* Fourth Edition is a concise and accessible introduction to the basic attitudes and skills that make ethics work like thinking for oneself creative and integrative problem solving and keeping an open mind This unique volume illuminates the broad kinds of practical intelligence required in moral judgment complementing the narrower theoretical considerations that often dominate ethics courses The optimistic tone and brisk pace of the narrative provide an entertaining and intelligent guide to everyday morality The fourth edition features a new chapter 3 on ethical theories significantly revised and expanded chapters 4 and 5 on conflicts of value and creative problem solving in ethics and a new concluding chapter 6 on Making a Difference which explains how students can incorporate ethical thinking and practice into their daily lives [A Practical Companion to Ethics](#)

Anthony Weston, 2002 *A Practical Companion to Ethics* is ideal for courses in introductory ethics with applications in any course related to critical thinking and ethical problem solving [A Practical Companion to Ethics](#) Anthony Weston, 2006 *A Practical Companion to Ethics* Third Edition is a concise and accessible introduction to the basic attitudes and skills that make ethics work like thinking for oneself creative and integrative problem solving and keeping an open mind This unique volume illuminates the broad kinds of practical intelligence required in moral judgment complementing the narrower theoretical considerations that often dominate ethics courses It offers practical instruction in problem solving by demonstrating how to frame an ethical problem and deal effectively with ethical disagreements The book also presents ethics as an ongoing learning experience helping students to deal with both the complexities of their individual lives and with the larger issues that exist in the world around them The third edition retains the most popular features of the previous edition including challenging and relevant end of chapter exercises brief text boxes that define key terms and review core strategies and short dialogues that illustrate ethical dilemmas The optimistic tone and brisk pace of the narrative provide an entertaining and intelligent guide to everyday morality The third edition includes a more extensive treatment of ethics and religion Chapter 2 which provides the framework for a moral dialogue that reaches across sectarian divides It also contains a revised final chapter on the continuously unfolding nature of ethical understanding and an expanded appendix that gives detailed advice on writing various types of ethics papers Ideal for introductory courses in ethics and applied ethics *A Practical Companion to Ethics* Third Edition can also be used in any course related to critical thinking **A Companion to**

Ethics Peter Singer, 2013-06-05 In this volume some of today's most distinguished philosophers survey the whole field of ethics from its origins through the great ethical traditions to theories of how we ought to live arguments about specific ethical issues and the nature of ethics itself The book can be read straight through from beginning to end yet the inclusion of a multi-layered index coupled with a descriptive outline of contents and bibliographies of relevant literature means that the volume also serves as a work of reference both for those coming afresh to the study of ethics and for readers already familiar

with the subject *A 21st Century Ethical Toolbox* Anthony Weston,2018 A 21st Century Ethical Toolbox invites students to think beyond the rigid pro and con positions of tough ethical problems by developing creative problem solving skills moral vision and genuine dialogue Provocative selections from a wide range of philosophers essayists community activists and students are interwoven with Weston s own discussions to equip students with the tools they need to think critically about contentious issues **The Routledge Companion to Ethics** John Skorupski,2010-06-21 The Routledge Companion to Ethics is an outstanding survey of the whole field of ethics by a distinguished international team of contributors Over 60 chapters are divided into six clear sections the history of ethics meta ethics perspectives from outside ethics ethical perspectives morality debates in ethics The Companion opens with a comprehensive historical overview of ethics including chapters on Plato Aristotle Hume and Kant and ethical thinking in China India and the Arabic tradition The second part covers the domain of meta ethics The third part covers important challenges to ethics from the fields of anthropology psychology sociobiology and economics The fourth and fifth sections cover competing theories of ethics and the nature of morality respectively with entries on consequentialism Kantian morality virtue ethics relativism evil and responsibility amongst many others A comprehensive final section includes the most important topics and controversies in applied ethics such as rights justice and distribution the end of life the environment poverty war and terrorism The Routledge Companion to Ethics is a superb resource for anyone interested in the subject whether in philosophy or related disciplines such as politics education or law Fully indexed and cross referenced with helpful further reading sections at the end of each chapter it is ideal for those coming to the field of ethics for the first time as well as readers already familiar with the subject *A Practical Guide to Clinical Ethics Consulting* Christopher Meyers,2007-04-26 A Practical Guide to Clinical Ethics Consulting reasserts the philosophical method as foundational to ethics consulting It does so in response to extensive attacks from social scientists lawyers theologians and especially practitioners all of whom disparage philosophy s reliance on abstract theory and conceptual analysis Using clinical ethics consulting as an exemplar Christopher Meyers argues that while many of the attacks are well founded they are only partly so and not in the most important respects Ethics consulting that relies too heavily on abstract analysis is of little use to practitioners consultants must have adequate grounding in and appreciation of the concrete reality of working professionals They must also be experienced enough to have the practical wisdom necessary to assist with real world problems Skills of philosophical analysis when combined with instruction in empirical investigation political awareness and appropriate character traits are vital to ethics consulting Ethicists need the theoretical and conceptual analysis skills that are a standard part of a philosophical education and mindset The book provides both a defense of this central thesis and a detailed description of the empirical tools and of the critical independence necessary to effective consulting Works Righteousness Anna L. Peterson,2020-10-19 In Works Righteousness Anna L Peterson examines the place of practice in contemporary ethical theory Peterson argues that rather than assuming that pre established moral ideas

guide action ethicists should acknowledge and explore the relationship between ideas actions and results Both an analysis of alternative models in which practice plays a stronger role and an argument for taking practice more seriously in broad questions of ethics as well as in concrete case studies Works Righteousness contends that what we do generates and alters our values just as often as expressed values motivate or guide the ways we act Peterson here challenges prevailing philosophical and religious theories that ideas are what truly matter underlining the value of attention to people s concrete experiences and highlighting the relevance of theoretical insights to contemporary social issues such as climate change euthanasia and hate speech Through examinations of pragmatism Marxism and religious pacifism all of which significantly highlight a practice focused approach Works Righteousness addresses the way social structures condition moral ideas and actions the dangers of thinking about moral problems as polarized dilemmas and the complex mutual shaping of ideas and actions

Clinical Ethics Consultation: A Practical Guide Bashir Jiwani,2017-08-29 This book provides a careful and comprehensive step by step method for providing clinical ethics consultation This Guide can be applied in almost any healthcare setting and takes the reader from establishing an intake process and developing strategies for interviewing those involved in the situation to undertaking a consultation meeting and following up on a clinical consult The book is an invaluable resource to any clinical ethicist or committee or consult team member who is seeking to provide their service with rigour and quality Written in simple language the book explores ideas and concepts that will help the reader to understand think through and ultimately offer useful ethical consultation when facing ethically challenging issues

Handbook of Research on Technoethics Luppicini, Rocci,Adell, Rebecca,2008-08-31 This book traces the emergence of the new interdisciplinary field of technoethics by exploring its conceptual development important issues and key areas of current research Compiling 50 authoritative articles from leading researchers on the ethical dimensions of new technologies Provided by publisher
