Lavrakas, 2015-02-23 This unique text provides a comprehensive framework for creating, managing and interpreting qualitative research studies that yield valid and useful information. Examples of studies from a wide range of disciplines illustrate the strengths, limitations and applications of the primary qualitative methods in depth: interviews, focus group discussions, ethnography, content analysis and case study and narrative research. Following a consistent format, chapters show students and researchers how to implement each method within a paradigm-neutral and flexible Total Quality Framework (TQF) comprising four interrelated components: Credibility, Analyzability, Transparency and Usefulness. Unlike other texts that relegate quality issues to one or two chapters, detailed discussions of such crucial topics as construct validity, interresearcher reliability, researcher bias and verification strategies are featured throughout. The book also addresses applications of the TQF to the writing, review and evaluation of qualitative research proposals and manuscripts. Pedagogical Features: Summary tables that highlight important content such as the application of a method to vulnerable or hard-to-reach populations; Case studies that illustrate TQF standards in practice for each method; Guidelines for effective documentation via thick descriptions of each type of study; End-of-chapter discussion topics, exercises and suggested further reading and Web resources. Chapters open with a preview and close with a bulleted summary of key ideas. Extensive glossary. 2021 Winner American Association for Public Opinion Research (AAPOR) Book Award. *The Routledge Companion to Applied Qualitative Research in the Caribbean* Corin Bailey, Roy McCree, Latoya Lazarus, Natalie Dietrich Jones, 2023-11-10 This cutting-edge book provides a comprehensive examination of applied qualitative research in the Caribbean. It highlights the methodological diversity of qualitative research by drawing on various approaches to the study of Caribbean society, addressing the lack of published qualitative research on the region. Featuring 17 chapters, the book covers five key areas: Overview and Introduction; Gender, Crime and Violence; Gender and Intimate Partner Violence; Health, Management and Public Policy; and Migration and Tourism. Throughout the course of the book, the chapters explore how different kinds of qualitative research can be used to inform public policy and help deal with a myriad of socioeconomic problems that affect Caribbean people. The book further uses distinct approaches to showcase a diverse selection of qualitative research methods such as autoethnography, life history, narrative enquiry, participant observation, grounded theory, case study and critical discourse. The book will be beneficial for students and scholars both from the Caribbean and internationally who are engaged in the conduct of qualitative empirical enquiry. It will further hold appeal to advanced undergraduate-level classes and postgraduate students along with scholars in the fields of social sciences and education. [Practical Mapping for Applied Research and Program Evaluation](#) Bernadette Wright, Steven E. Wallis, 2019-05-31 Practical Mapping for Applied Research and Program Evaluation is the first book to bring the mapping methodology to social research and program evaluation. Bernadette Wright and Steven E. Wallis guide readers through all phases of the research process: learning from stakeholder experience, reviewing existing knowledge in the field, conducting new data collection such as interviews, collaborating with other

researchers and facilitating the use of knowledge for communication collaboration and action With plenty of illustrations and navigational aids such as travel tips the book is an accessible guide for busy students researchers and managers of all levels of experience
