Mountains Rutland Railroad Company, 1897 **Grizzly Heart** Charlie Russell, 2011-05-18 An absorbing first hand account of living with bears from the acclaimed author of The Spirit Bear To many people grizzlies are symbols of power and ferocity creatures to be feared and too often killed But Charlie Russell who has had a forty year relationship with bears holds the controversial belief that it is possible to live with and truly understand bears in the wild And for five years now Russell and his partner artist and photographer Maureen Enns have spent summers on the Kamchatka peninsula located on the northeast coast of Russia and home of the densest population of brown bears in the world Grizzly Heart tells the remarkable story of how Russell and Enns have defied the preconceptions of wildlife officials and the general public by living unthreatened and respected among the grizzlies of Kamchatka In an honest and immediate style Russell tells of the trials and successes of their years in the field from convincing Russian officials to allow them to study to adopting three bear cubs left orphaned when their mother was killed by a hunter and teaching these cubs how to survive in the wild to raising environmental awareness through art Through a combination of careful study and personal dedication Russell and Enns are persuading people to reconsider the age old image of the grizzly bear as a ferocious man eater and perpetual threat Through their actions they demonstrate that it is possible to forge a mutually respectful relationship with these majestic giants and provide compelling reasons for altering our culture We have been able to live beautifully with these animals with no serious threat because of what we've learned Hopefully sharing what we learn will help people and be a big help to our bears too **Guide to Life**
