Beyond Price Beyond Price:

Beyond Price J. David Velleman, 2015-10-08 In nine lively essays bioethicist J David Velleman challenges the prevailing consensus about assisted suicide and reproductive technology articulating an original approach to the ethics of creating and ending human lives He argues that assistance in dying is appropriate only at the point where talk of suicide is not and he raises moral objections to anonymous donor conception In their place Velleman champions a morality of valuing personhood over happiness in making end of life decisions and respecting the personhood of future children in making decisions about procreation These controversial views are defended with philosophical rigor while remaining accessible to the general reader Written over Velleman's 30 years of undergraduate teaching in bioethics the essays have never before been collected and made available to a non academic audience They will open new lines of debate on issues of intense public interest *Beyond Costs* Elías Albagli, Mr. Francesco Grigoli, Emiliano Luttini, Dagoberto Quevedo, Marco Rojas, 2025-08-15 This paper documents five empirical facts about the role of strategic complementarities in firms price setting behavior using administrative data from Chilean firms 1 Strategic complementarities play a dominant role in price setting exerting a stronger influence than changes in marginal costs 2 While the strength of strategic complementarities varies across sectors they consistently outweigh the role of cost changes 3 In high inflation environments firms become more responsive to changes in the prices of their competitors 4 Firms respond more strongly to competitor price increases than to decreases mirroring the rockets and feathers phenomenon of costs 5 Strategic complementarities are stronger among firms with fewer competitors larger market shares and broader customer bases These findings suggest that strategic complementarities a source of real rigidities are sizable state dependent asymmetric and shaped by market structure Value Beyond Cost Savings Scott R. Muldavin, 2010 Beyond the Low Cost Business Josep Francesc Valls Giménez, 2013-01-31 Clients are consistently demanding lower prices at the time of each purchase and companies can only react by reducing costs This volume shows that the only way to do this is to reinvent the business model New consumers new pricing new brands new strategies **Seven Decades of Econometrics and Beyond** Badi H.
