The cognitive dissonance spawned by trying to live in a society we are not built for is killing us In this book Heying and Weinstein draw on decades of their work teaching in college classrooms and exploring Earth's most biodiverse ecosystems to confront today's pressing social ills from widespread sleep deprivation and dangerous diets to damaging parenting styles and backward education practices Asking the questions many modern people are afraid to ask A Hunter Gatherer's Guide to the 21st Century outlines a science-based worldview that will empower you to live a better wiser life **Study Guide for**
