Bog Tender Coming Home To Nature And Memory:

Bog Tender George Szanto, 2013-03-05 A tribute to nature's influence on the creative process *Bog Tender* is a stunning memoir that explores nature and the act of writing and where the two intersect Accomplished fiction author George Szanto lives and writes on a bog that cuts his property in two Rather than filling in the wetland he has embraced it as a site of inspiration Pieced together in 12 chapters one for each month of the year this enchanting narrative explores how Szanto's writing process is affected by the bog's transformations throughout the seasons Through each chapter the author searches for the moments of greatest consequence to him from his parents' escape from Hitler's Vienna to his time spent studying in Germany and from meeting his future wife and becoming a parent to his adventures in Mexico Set in a place where city is left behind for rural space *Bog Tender* is about home and the intricate connections that evolve under and above the water

Bog Tender George H. Szanto, 2013 A memoir of Canadian author George Szanto **Storytelling for Sustainability in Higher Education** Petra Molthan-Hill, Heather Luna, Tony Wall, Helen Puntha, Denise Baden, 2020-03-25 To be a storyteller is an incredible position from which to influence hearts and minds and each one of us has the capacity to utilise storytelling for a sustainable future This book offers unique and powerful insights into how stories and storytelling can be utilised within higher education to support sustainability literacy Stories can shape our perspective of the world around us and how we interact with it and this is where storytelling becomes a useful tool for facilitating understanding of sustainability concepts which tend to be complex and multifaceted The craft of storytelling is as old as time and has influenced human experience throughout the ages The conscious use of storytelling in higher education is likewise not new although less prevalent in certain academic disciplines what this book offers is the opportunity to delve into the concept of storytelling as an educational tool regardless of and beyond the boundaries of subject area Written by academics and storytellers the book is based on the authors' own experiences of using stories within teaching from a story of the Ecology of Law to the exploration of sustainability in accounting and finance via contemporary cinema Practical advice in each chapter ensures that ideas may be put into practice with ease In addition to examples from the classroom the book also explores wider uses of storytelling for communication and sense making and ways of assessing student storytelling work It also offers fascinating research insights for example in addressing the question of whether positive utopian stories relating to climate change will have a stronger impact on changing the behaviour of readers than will dystopian stories Everyone working as an educator should find some inspiration here for their own practice on using storytelling and stories to co-design positive futures together with our students Whatever Lola Wants George H. Szanto, 2014 Ted tells stories Perched high on a cloud he peers down at the Earth and the mortals who inhabit it listening to their memories Lola once a famous Hollywood bombshell now a god listens to his stories Ted's words capture her heart just as she captured the hearts of her fans Down below three families experience joy tragedy hope and loss Milton and Theresa are activists conservationists parents lovers fighters Cochan is a self-styled
