

Bones of Contention

A Creationist Assessment of Human Fossils

Marvin L. Lubenow

Written for the layperson.

Documented for further study.

Based entirely on fossils accepted unconditionally by evolutionists.

Marvin L. Lubenow has researched the fossil issue for 25 years and frequently speaks and writes to defend the creationist position. He is professor of Bible and apologetics at Christian Heritage College, El Cajon, California.

Cover illustration by Gary Eldridge

This is the most complete and accurate critique of the fossils of the so-called "ape men." The myth of human evolution is completely demolished. The last chapter, repudiating the compromising views of many modern evangelicals on this subject, is illuminating. Lubenow has made an invaluable contribution to scientific biblical creationism.

Henry M. Morris, president
Institute for Creation Research

The material on the dating of the famous skull fossil KNM-ER 1470 is brilliant!

Gerald Aardsma
radiometric dating specialist
Institute for Creation Research

On the question of biological, especially human, origins, Lubenow is not content to merely quote biblical theory (if I may use that word). Like a true scholar he researches in depth the literature in the scientific journals, sifting the evidence, searching out the areas open to interpretation. . . . He does his homework so thoroughly that he makes someone like me who would carry on a dialogue with him (as we did on creationism vs. Darwinism) also do his homework. . . . He is a pleasure to fence with intellectually.

Bones Of Contention A Creationist Assessment Of Human Fossils

John R. Cross

Bones Of Contention A Creationist Assessment Of Human Fossils:

Bones of Contention Marvin L. Lubenow, 2004-10-01 Seeking to disprove the theory of human evolution the author examines the fossils of the so called ape men *Bones of Contention* Marvin L. Lubenow, 1992 *EVOLUTION: A Grand Monument to Human Stupidity* Daniel Jappah, 2007-09-01 The theory of evolution has changed so much claiming that humans are closely related genetically to chimps mice donkeys and even fish that the theory is now a blurred mess masquerading as a scientific fact It s a theory built on countless speculations scientific fraud and multiple conflicting theories Garnering the evidence from biology chemistry genetics geology history paleontology and physics evolution is exposed as a racist philosophy and a false science that provided the scientific justification for the Holocaust and other genocides including the plot to silently exterminate American minorities through abortion and birth control The evidence for evolution is examined in the light of genuine science You may not like what you read but you can t argue with the facts **What Darwin Didn't**

Know Geoffrey Simmons, **The Mysterious Origins of Hybrid Man** Susan B. Martinez, 2013-11-02 A provocative challenge to Darwin s theory of evolution Shows there is no missing link because the human race since day one is the result of outright interbreeding among highly diverse types Reveals multiple Gardens of Eden and how each continent has its own independent hominid lineages Explains Homo sapiens mental powers the Great Leap Forward and how we acquired the blood of the gods which endowed us with a soul Did we evolve from apes or are we all descendants of Adam and Eve Why is the missing link still missing Is the dumb luck of natural selection valid Piecing together the protohistory of humanity through anthropology genetics paleolinguistics and indigenous traditions Susan B Martinez offers an entirely original alternative to Darwin s evolution Modern humanity did not evolve but is a mosaic of mixed ancestry the result of eons of cross breeding and retro breeding among different groups including Cro Magnon Neanderthal hobbits giants and Africa s Lucy and Zinj Martinez shows that there were multiple Gardens of Eden and how each continent had its own blend of races prior to the Great Flood which caused the diaspora that brought a renaissance of culture to every division of the Earth Martinez explains Homo sapiens mental powers the Great Leap Forward in cosmological terms how we are the product of both heaven and earth She identifies the Sons of Heaven and the angel engendered races explaining how Homo sapiens acquired the blood of the gods which endowed us with a soul Providing the ultimate resolution to the Evolution versus Creationism debate this landmark study of hybrid man justifies his unexpectedly sudden appearance in the fossil record the curious parallels between oral histories of the world s people and why anatomically modern features are found in the earliest paleontological evidence

The Stranger on the Road to Emmaus John R. Cross, Here is a book that explains the greatest of Bible themes clearly and logically **From Flood to Fallen Kingdoms** Jarno Moilanen, 2025-05-13 From Flood to Fallen Kingdoms FFFK is the first truly authoritative detailed and coherent young earth creationist overview of the post flood history of the ancient Near East and the land of Israel for laypersons and scholars alike It is a unique work which does not have serious rivals in the biblical

creationist book market The lack of a good and comprehensive introductory book was the main reason why I started to write the book in the first place I have made use of the best available scholarly literature Christian as well as secular The book contains a lot of my own research but it is also in very good agreement with the archaeological articles written by A J M Osgood can be read at creation com and the books of David Down Unwrapping the Pharaohs and Unveiling the Kings of Israel for example FFFK follows the absolute chronology of Floyd Nolen Jones The Chronology of the Old Testament As a Bible faithful narrative introduction to the history and archaeology of the ancient Near East From Flood to Fallen Kingdoms is far better than the existing apologetic works that come towards the genre of FFFK Evidence for the Bible by Clive Anderson and Brian Edwards Ancient Post Flood History by Ken Johnson The World s Story 1 The Ancients by Angela O Dell for example From Flood to Fallen Kingdoms will strengthen the faith of numerous believing readers who take the Holy Scriptures seriously They will also be surprised to see how well the first five post flood centuries from Ararat to Abraham which until now have been in great darkness can be elucidated through proper interpretation of biblical and archaeological evidence

Creation of Universe God or Big Bang Keerthi Kumar Patangay,2017-10-26 The book is about dealing with atheist book of Samkya Sutra and its interpretation of creation In the chapter 2 on Astronomy author has included references from Rig Veda on Solar system and gravity Surya Sidhanta on sidereal movement of earth and also on gravity Author quotes creation of Universe from Rig Veda X 129 by Pujya RL Kashyap Taitereya samhita Stephen Stunned s understanding of Nadya sukta from Rig Veda X 129 Author also includes creation of Universe as per Brihadarnaya and Aiteriya Upanishads Various other Upanishads dealing with Creation of Universe Manvantara theory of solar evolution Speed of light as per Rig Veda and Hindu unit of time Biblical Doctrine of Creation by Rev Dr G Wright Doyle and a chapter from quran on creation is also included Then scientific evidence such as Big Bang Quantum physics professing that Universe always existed then Universe from nothing are included In the last chapter Conclusion author rebuts Samkya Sutra with various references from Bhagwad Gita Upanishads Brahma Sutra and Bible The author also rebuts Big Bang theory Author tries to draw parallel between quantum mechanics and spirituality

Science and Christianity in Pulpit and Pew Ronald L. Numbers,2007-09-10 As past president of both the History of Science Society and the American Society of Church History Ronald L Numbers is uniquely qualified to assess the historical relations between science and Christianity In this collection of his most recent essays he moves beyond the clichés of conflict and harmony to explore the tangled web of historical interactions involving scientific and religious beliefs In his lead essay he offers an unprecedented overview of the history of science and Christianity from the perspective of the ordinary people who filled the pews of churches or loitered around outside Unlike the elite scientists and theologians on whom most historians have focused these vulgar Christians cared little about the discoveries of Copernicus Newton and Einstein Instead they worried about the causes of the diseases and disasters that directly affected their lives and about scientists preposterous attempts to trace human ancestry back to apes Far from dismissing opinion

makers in the pulpit Numbers closely looks at two the most influential Protestant theologians in nineteenth century America Charles Hodge and William Henry Green Hodge after decades of struggling to harmonize Gods two revelations in nature and in the Bible in the end famously described Darwinism as atheism Green on the basis of his careful biblical studies concluded that Ussher s chronology was unreliable thus opening the door for Christian anthropologists to accommodate the subsequent discovery of human antiquity In Science without God Numbers traces the millennia long history of so called methodological naturalism the commitment to explaining the natural world without appeals to the supernatural By the early nineteenth century this practice was becoming the defining characteristic of science in the late twentieth century it became the central point of attack in the audacious attempt of intelligent designers to redefine science Numbers ends his reassessment by arguing that although science has markedly changed the world we live in it has contributed less to secularizing it than many have claimed Taken together these accessible and authoritative essays form a perfect introduction to Christian attitudes towards science since the 17th century

All that the Prophets Have Spoken John R. Cross, 2014-04-18 The Prophets have spoken It is wise to know what they said It s a fascinating story a story you really must know for yourself History is strewn with wars and scrapping over religion With the advent of the global village people of different beliefs are being pressed up against each other and the potential for major conflict is enormous It behooves us to know what our neighbours believe and why they believe it Though we may never agree with them when we know what people believe at the very least we can intelligently disagree without being disagreeable All that the Prophets have Spoken is about the most widely distributed and most vehemently disputed book in history the Bible If you are one of those who seriously wants to understand the message of the Prophets then this book is for you
