British Generals In Blairs Wars Military Strategy And Operational Art:

British Generals in Blair's Wars Jonathan Bailey, Richard Iron, 2016-04-15 *British Generals in Blair's Wars* is based on a series of high profile seminars held in Oxford in which senior British officers predominantly from the army reflect on their experience of campaigning. The chapters embrace all the UK's major operations since the end of the Cold War but they focus particularly on Iraq and Afghanistan. As personal testimonies they capture the immediacy of the authors' thoughts at the time and show how the ideas of a generation of senior British officers developed in a period of rapid change against a background of intense political controversy and some popular unease. The armed forces were struggling to revise their Cold War concepts and doctrines and to find the best ways to meet the demands placed upon them by their political leaders in what was seen to be a New World Order. It was a time when relations between the Government of the day and the armed services came under close scrutiny and when the affection of the British public for its forces seemed to grow with the difficulty of their operational tasks. This is a truly unique and invaluable book. For the first time we are offered first hand testimony about Britain's involvement in recent campaigns by senior participants. In addition to touching on themes like civilian military relations, the operational direction of war and relationships with allies, these eyewitness accounts give a real sense of how the character of a war changes even as it is being fought. It will be essential reading for those in military academies and staff colleges not only in Britain but throughout NATO and especially in the USA. It also has profound policy implications as both the UK and NATO more generally reassess their strategies and the value of intervention operations. It will also become a primary source for historians and students of the wars in Iraq and Afghanistan in particular.

British Generals in Blair's Wars Jonathan B. A. Bailey, Richard Iron, Hew Strachan, 2013

Clausewitz's Timeless Trinity Colin M. Fleming, 2016-05-23 This is the first book to apply the Clausewitzian Trinity of passion, chance and reason to the experience of real war. It explores the depth and validity of the concept against the conflicts of former Yugoslavia, wars thought to epitomise a post-Clausewitzian age. In doing so it demonstrates the timeless message of the Trinity but also ties the Trinitarian idea back into Clausewitz's political argument. Intended to build on the existing corpus of scholarship, this book differs from the existing literature in two ways. By applying the Trinity to the wars of former Yugoslavia, 1991-1995, it explores war at its micro-foundations, assessing the complex cause and effect nexus of reciprocity produced by actions between belligerents embroiled in dynamic competition, perpetuated by their own interaction. Providing valuable insights into the complexities of real war, fuelled by passion, undermined by chance and shaped by reason, it is the first study to bridge the Clausewitzian world of theory with real experience. Examining each part of the triad separately, the book explores the multiple manifestations of hostility and chance before then assessing the influence of these elements on the policies of the belligerents as the war evolved.

Those Terrible Grey Horses Stephen Wood, 2015-05-24 The Royal Scots Dragoon Guards and their antecedents have been involved in every major British campaign since the 17th century. On 18 June 1815, the Royal Scots Greys charged Napoleon's infantry.

columns capturing the eagle of the French 45th Infantry Napoleon is said to have commented of the regiment Ah ces terribles chevaux gris those terrible grey horses Today that eagle is the regimental badge of the Royal Scots Dragoon Guards Scotland's senior regiment and her only regular cavalry Here Stephen Wood tells the story of glorious cavalry charges and terrifying tank battles from the Western Front to the liberation of Basra Stunning paintings bring the narrative to life while contemporary photography depicts both the horror and the compassion of modern warfare as witnessed by the officers and troopers of this unique regiment

Blair's Successful War Andrew M. Dorman, 2016-04-08 Andrew Dorman introduces Sierra Leone as Blair's second great military adventure after Kosovo and the first he undertook on his own It is tied to Blair's 1999 Chicago speech on the Doctrine of the International Community his move towards humanitarianism and the impact of the Kosovo experience The book links this move with the rise of cosmopolitan militaries and the increasing involvement of Western forces in humanitarian operations and their impact on the international system Furthermore it places it within the context of defence transformation and the emerging Western expeditionary capabilities in particular the European Union's new battle group concept and developments in concepts such as Network Centric Warfare and Networked Enabled Capability Examining the whole campaign and considering the impact on the Blair Government this book will prove to be a key reader on the topic

Understanding Civil-Military Interaction Gunhild Hoogensen Gjørsv, 2016-02-24 A novel examination of civil military interaction in particular between militaries and humanitarian actors in light of the so called Norwegian model that espouses a clear divide between political and humanitarian or military and civilian the model is in fact unclear actors while maintaining a tight coordination between them The Norwegian government has significantly reduced their own military's capacity in the field of civil military interaction raising the question as to whether knowledge and skills in this field are necessary Using a multi actor security framework this book examines whether or not the Norwegian government is correct in its assumptions about both the model and civil military knowledge amongst military personnel and concludes that the Norwegian model is a well meaning but inefficient and problematic model in reality Although the case study focuses on Norway the lessons learned are relevant to all nations engaged in civil military operations

Reassessing the Revolution in Military Affairs Andrew Futter, Jeffrey Collins, 2015-10-12 A generation after the First Gulf War and in the wake of a decade of counterinsurgency operations and irregular warfare this book explores how the concept of the Revolution in Military Affairs continues to shape the way modern militaries across the globe think about plan and fight wars

Inside Cambodian Insurgency Daniel Bultmann, 2016-05-23 There are many different types of power practice directed towards making soldiers obedient and disciplined inside the field of insurgency While some commanders punish by inflicting physical pain others use re-educative methods While some prepare soldiers by using close knit combat simulations others send their subordinates immediately into battle While these variations cannot fully be explained by the ideological set up of different groups or by their political orientation the basic assumption of the study is that they nevertheless do not emerge at

random This book puts forth that the type of power being utilised depends on the habitus of the respective commander and as a result becomes socially differentiated Furthermore power practices are shaped by the classificatory discourse of commanders and their soldiers on good soldierhood and leadership The study found multiple habitus groups inside the field of insurgency each with a distinctive classificatory discourse and a corresponding power type at work While commanders shaped the dominating power practices such as military trainings indoctrination systems of rewards and punishments etc low ranking soldiers took active part in supporting or undermining power according to their own habitus formation This book helps professionals in this area to understand better the types of power practice inside insurgencies It is also a useful guide to students and academics interested in peace and conflict studies sociology and Southeast Asia

The Long Shadow of World War II Matthias Strohn, 2021-08-31 2020 marks 75 years since the end of World War II yet even as the war slips from living memory its legacies continue to influence current political and military thinking This anthology will analyze these legacies for a number of countries and regions including China Russia the United States the Near East and Germany illustrating in detail how World War II is not merely a historical event but a defining moment for current military and political thinking around the globe This book will therefore be of interest for those interested in history but also political and military decision makers and followers of current political and military affairs

Air Power in UN Operations A. Walter Dorn, 2016-03-23 Air power for warfighting is a story that has been told many times Air power for peacekeeping and UN enforcement is a story that desperately needs to be told For the first time this volume covers the fascinating range of aerial peace functions In rich detail it describes aircraft transporting vital supplies to UN peacekeepers and massive amounts of humanitarian aid to war affected populations aircraft serving as the eyes in sky to keep watch for the world organization and combat aircraft enforcing the peace Rich poignant case studies illuminate the past and present use of UN air power pointing the way for the future This book impressively fills the large gap in the current literature on peace operations on the United Nations and on air power generally
