Conservative Party-Building in Latin America James Loxton,2021-05-28 Voice and Inequality is about conservative parties in Latin America James Loxton examines parties formed between 1978 and 2010 and tries to understand why some were more successful than others The main puzzle is the surprising connection between roots in dictatorship and success under democracy What allowed authoritarian successor parties in countries like Chile and El Salvador to succeed while those with more democratic origins in countries like Argentina and Guatemala failed It argues that this was not a coincidence the former inherited valuable resources from the old regime that helped them to thrive in the new

Votes from Seats Matthew S. Shugart,Rein Taagepera,2017-10-06 Take the number of seats in a representative assembly and the number of seats in districts through which this assembly is elected From just these two numbers the authors of Votes from Seats show that it is possible to deduce the number of parties in the assembly and in the electorate as well as the size of the largest party Inside parties the vote distributions of individual candidates likewise follow predictable patterns Four laws of party seats and votes are constructed by logic and tested using scientific approaches rare in social sciences Both complex and simple electoral systems are covered and the book offers a set of best practices for electoral system design The ability to predict so much from so little and to apply to countries worldwide is an advance in the systematic analysis of a core institutional feature found in any democracy and points the way towards making social sciences more predictive
