Building Peace Sustainable Reconciliation In Divided Societies:

Building Peace ... Sustainable Reconciliation in Divided Societies, 1999 **Building Peace** John Paul Lederach, 1997

Building Peace Juan Pablo Lederach, 1995 , **Building Peace** Craig Zelizer, Robert A. Rubinstein, 2009 Even though international peacebuilding has rapidly expanded in the last two decades to respond to more multi faceted and complex conflicts the field has lagged behind in documenting the impact and success of projects To help address this gap the Alliance for Peacebuilding one of the leading networks in the field has brought together 13 stories of innovative peacebuilding practices from around the world in *Building Peace* While the projects covered are diverse in nature together they demonstrate the significant impact of peacebuilding work Contributors created new institutions to prevent and manage conflicts at the local or national levels helped restore relationships in conflict affected communities and empowered citizens to work for positive change in their societies across ethnic religious and political divides It s clear that there is no quick fix for violence but this volume will go a long way in providing inspiration and practical tools for policymakers academics and practitioners who seek to make significant and valuable contributions towards achieving peace **The Moral Imagination** John Paul Lederach, 2010 John Paul Lederach s work in the field of conciliation and mediation is internationally recognized He has provided consultation training and direct mediation in a range of situations from the Miskito Sandinista conflict in Nicaragua to Somalia Northern Ireland Tajikistan and the Philippines His influential 1997 book *Building Peace* has become a classic in the discipline In this book Lederach poses the question How do we transcend the cycles of violence that bewitch our human community while still living in them Peacebuilding in his view is both a learned skill and an art Finding this art he says requires a worldview shift Conflict professionals must envision their work as a creative act an exercise of what Lederach terms the moral imagination This imagination must however emerge from and speak to the hard realities of human affairs The peacebuilder must have one foot in what is and one foot beyond what exists The book is organized around four guiding stories that point to the moral imagination but are incomplete Lederach seeks to understand what happened in these individual cases and how they are relevant to large scale change His purpose is not to propose a grand new theory Instead he wishes to stay close to the messiness of real processes and change and to recognize the serendipitous nature of the discoveries and insights that emerge along the way overwhelmed the equally important creative process Like most professional peacemakers Lederach sees his work as a religious vocation Lederach meditates on his own calling and on the spirituality that moves ordinary people to reject violence and seek reconciliation Drawing on his twenty five years of experience in the field he explores the evolution of his understanding of peacebuilding and points the way toward the future of the art http://www.loc.gov/catdir/enhancements/fy0616/2004011794_d.html **Building Peace** Laura J. Shepherd, 2018-10-11 Moving seamlessly from the global to the local from the politics of institutions to the theoretical apparatus through which we analyse peace and security governance the contributions to this volume draw attention to the

operations of gendered power in peacebuilding across diverse contexts and explore the possibilities of gender sensitive sustainable peace The authors have wide ranging expertise in gendered analysis of the peacebuilding practices of international and national organisation detailed and complex qualitative analysis of the gendered politics of peacebuilding in specific country contexts and feminist analysis of the tools we use to think with when approaching contemporary debates about peacebuilding The volume thus serves not only as a useful marker of the development of feminist encounters with peacebuilding but also as a foundation for future scholarship in this area This book was originally published as a special issue of the journal Peacebuilding

Peacekeeping and Conflict Resolution Oliver Ramsbotham, Tom Woodhouse, 2013-07-04 Conflict resolution theory has become relevant to the various challenges faced by the United Nations peacekeeping forces as efforts are made to learn from the traumatic and devastating impact of the many civil wars that have erupted in the 1990s This work analyzes the theory

The Impact of Protracted Peace Processes on Identities in Conflict Joana Ricarte, 2022-11-29 This open access book discusses the impact of protracted peace processes on identities in conflict It is concerned with how lingering peace processes affect in the long term patterns of othering in protracted conflicts and how this relates with enduring violence Taking Israel and Palestine as a case study the book traces different representations of success and failure of the protracted peace process as well as its associated policies narratives norms and practices to analyze its impact on identity and its contribution to the maintenance and or transformation of the cultural component of violence On the one hand drawing from an interdisciplinary approach comprising International Relations IR History and Social Psychology this book proposes an analytical framework for assessing the specificities of the construction of identities in protracted conflicts It identifies dehumanization and practices of reconciliation in ongoing conflicts what is called peace less reconciliation as the main elements influencing processes of othering and violence in this kind of conflicts On the other hand the book offers an empirical historical analysis on how the protracted peace process has impacted identity building and representations made of the other in the case of the Israeli Palestinian conflict since the end of the 19th century to the present day

The Internal Implementation of Peace Agreements after Violent Intrastate Conflict Arist von Hehn, 2011-08-11 This book is at heart a guide on how to best approach the management of an internally led peace implementation process after a violent intrastate conflict It explains the principal tasks legal framework and management implications of internal peace implementation and illustrates this with many examples of best practice as well as possible pitfalls The book integrates a broad analysis of current academic research with a substantial number of interviews with experts from the field With a foreword by Nobel Peace Prize Laureate President Martti Ahtisaari
