Aldo Van Eyck Aldo van Eyck, 1982 *Aldo van Eyck, Hubertushuis* Herman Hertzberger, Addie van Roijen-Wortmann, Francis Strauven, 1987 Beschrijving van het werk van de Nederlandse architect geb 1918 waarbij het Hubertushuis te Amsterdam als uitgangspunt genomen is Utopias and Architecture Nathaniel Coleman, 2007-05-07 Utopian thought though commonly characterized as projecting a future without a past depends on golden models for re invention of what is Through a detailed and innovative re assessment of the work of three architects who sought to represent a utopian content in their work and a consideration of the thoughts of a range of leading writers Coleman offers the reader a unique perspective of idealism in architectural design With unparalleled depth and focus of vision on the work of Le Corbusier Louis I Kahn and Aldo van Eyck this book persuasively challenges predominant assumptions in current architectural discourse forging a new approach to the invention of welcoming built environments and transcending the limitations of both the postmodern and hyper modern stance and orthodox modernist architecture *Functionalism Revisited* Jon Lang, Walter Moleski, 2016-12-05 A range of current approaches to architecture are neglected in our contemporary writings on design philosophies This book argues that the model of function and the concept of a functional building that we have inherited from the twentieth century Modernists is limited in scope and detracts from a full understanding of the purposes served by the built environment It simply does not cover the range of functions that buildings can afford nor is it tied in a conceptually clear manner to our contemporary concepts of architectural theory Based on Abraham Maslow's theory of human motivations and following on from Lang's widely used text *Creating Architectural Theory The Role of the Behavioral Sciences in Environmental Design* Lang and Moleski here propose a new model of functionalism that responds to numerous observations on the inadequacy of current ways of thinking about functionalism in architecture and urban design Copiously illustrated the book puts forward this model and then goes on to discuss in detail each function of buildings and urban environments Encyclopedia of Twentieth Century Architecture R. Stephen Sennott, 2004 A balance of sophistication and clarity in the writing authoritative entries and strong cross referencing that links architects and structures to entries on the history and theory of the profession make this an especially useful source on a century of the world's most notable architecture The contents feature major architects firms and professional issues buildings styles and sites the architecture of cities and countries critics and historians construction materials and planning topics schools movements and stylistic and theoretical terms Entries include well selected bibliographies and illustrations Reference that rocks American Libraries May 2005 **Modern Architecture in Europe** Dennis J. De Witt, Elizabeth R. De Witt, 1987 **Design and Agency** John Potvin, Marie-Ève Marchand, 2020-05-14 Design and Agency brings together leading international design scholars and practitioners to address the concept of agency in relation to objects organisations and people The authors set out to expand the scope of design history and practice avoiding the heroic narratives of a typical

modernist approach They consider both how the agents of design construct and express their identities and subjectivities through practice while also investigating the distinctive contribution of design in the construction of individual identity and subjectivity Individual chapters explore notions of agency in a range of design disciplines and historical periods including the agency of women in effecting changes to the design of offices and working practices the role of Jeffrey Lindsay and Buckminster Fuller in developing the design of a geodesic dome Le Corbusier s Casa Curutchet a re consideration of the gendered historiography of the Jugendstil movement and Bruce Mau s design exhibitions Taken together the essays in Design and Agency provide a much needed response to the traditional texts which dominate design history With a broad chronological span from 1900 to the present and an equally broad understanding of the term design it expands how we view the discipline and shows how design itself can be an agent for social cultural and economic change Structuralism in Dutch Architecture Wim J. van Heuvel, Wim J Heuvel (van), 1992 Overzicht van een aantal architectuurprojecten uit de periode 1960 1991 die wel door de term structuralisme worden benoemd Everything Must Move Luke Bulman, Jessica Young, Thumb (Firm), 2009 Includes a list of graduates faculty and staff with list of their awards publications and thesis titles 1994 2009 The Penguin Guide to Amsterdam Vincent Westzaan, 1990
