Alexander The Great Themes And Issues

David Grant

Alexander The Great Themes And Issues:

Alexander the Great Edward M. Anson,2013-04-11 Alexander the Great's life and career are here examined through the major issues surrounding his reign What were Alexander's ultimate ambitions Why did he pursue his own deification while alive Did he actually set the world in a new groove as has been claimed by some scholars And was his death natural or the result of a murderous conspiracy Each of the key themes arranged as chapters will be presented in approximately chronological order so that readers unfamiliar with the life of Alexander will be able to follow the narrative The themes are tied to the major controversies and questions surrounding Alexander's career and legacy Each chapter includes a discussion of the major academic positions on each issue and includes a full and up to date bibliography and an evaluation of the historical evidence All source material is in translation Designed to bring new clarity to the contentious history of Alexander the Great this is an ideal introduction to one of history's most controversial figures [Philip II, the Father of Alexander the Great](#) Edward M. Anson,2020-10-01 Philip II was not only the father of Alexander the Great but in many respects was also the father of his son's incredible career It was the father who unified Macedonia into the first European nation and who created the army with which his son conquered the Persian Empire and inaugurated the Hellenistic Age This volume is not the standard biography but rather an examination of the major controversies concerning his life and reign How did Philip in roughly twenty years transform a divided territory and little more than a geographical conception into a national state How did he change the very nature of ancient Western warfare How did he transform this formerly exploited region into the master of the Greek world Each chapter discusses one of the major academic controversies surrounding this transformative figure bringing new clarity to the career of a man whose reputation has been so overshadowed by his illustrious son *The Ancient World Transformed* Pamela Bradley,2014-08-19 **Brill's Companion to the Reception of Alexander the Great**,2018-09-11 Brill's Companion to the Reception of Alexander the Great offers a considerable range of topics of interest to students and academics alike in the long tradition of this subject's significant impact across a sometimes surprising and comprehensive variety of areas Arguably no other historical figure has cast such a long shadow for so long a time Every civilisation touched by the Macedonian Conqueror along with many more that he never imagined has scrambled to own some part of his legacy This volume canvasses a comprehensive array of these receptions beginning from Alexander's own era and journeying up to the present in order to come to grips with the impact left by this influential but elusive figure [Alexander the Great, a Battle for Truth & Fiction](#) David Grant,2022-06-02 Most of what we know about Alexander the Great 356-323 BC comes from the pages of much later historians writing 300 years or more after these events But these Roman era writers drew on the accounts of earlier authors who were contemporary with Alexander some of whom took part in the momentous events they described David Grant examines the fragments of these earlier eyewitness testimonies which are preserved as undercurrents in the later works He traces their influence and monopoly of the truth and spotlights their manipulation of

events to reveal how the Wars of the Successors shaped the agendas of these writers. It becomes clear that Alexander's courtiers were no less ambitious than their king and wanted to showcase their role in the epic conquest of the Persian Empire to enhance their credibility and legitimacy in their own quests for power. In particular, Grant reveals why reports of the dying king's last wishes conflict and he explains why testimony relegated to romance may house credible grains of truth. The author also skillfully explains how manuscripts became further corrupted in their journey from the ancient world to the modern day. In summary, this work by a recognized expert on the period highlights why the legacy of Alexander is built on very shaky foundations.

Brill's Companion to the Campaigns of Philip II and Alexander the Great, 2024-12-23. This Companion, whose contributions come from an outstanding array of experts, deals exclusively with the military campaigns of Philip II and his son Alexander the Great and the forces that fought in them. In addition to discussions of the strategy and tactics of the two commanders, the Companion examines those elements that went into the determination of these strategies and tactics. Chapters will be devoted to the logistics of these campaigns, military recruitment and training, the care of diseased and injured soldiers, military organization and equipment, and much more. While no study can ever be truly complete, this Companion comes far closer than any such previous attempt.

Alexander's Successors and the Creation of Hellenistic Kingship, John Holton, 2025-06-12. What happened to Alexander the Great's empire when he died, and to the generals and companions that had conquered that empire with him? How did they begin to develop their own power and positions after his death? Alexander's Successors and the Creation of Hellenistic Kingship reconstructs how the development of royal ideologies led to five powerful new kingships after Alexander's death. It reveals how ideological performances and ongoing competition among the post-Alexander elite created the reality of the long-lasting institution of Hellenistic kingship, which would last for generations and even centuries as the model for autocratic power in the ancient world. A parallel study, Royal Traditions and the Consolidation of Power by Alexander's Successors, then examines the innovative new traditions of royal ideology that were developed in the consolidation of the new Hellenistic kingships. Ranging from the early regencies and civil wars after Alexander's death to the formation of multiple independent kingdoms and beyond the generation of Alexander's successors (323-276 BC), this is comprehensively investigated. With a comparative perspective and detailed studies of diverse evidence, this is the first dedicated study of the beginnings of Hellenistic kingship and the first to put these beginnings in an international context.

Royal Traditions and the Consolidation of Power by Alexander's Successors, John Holton, 2025-06-12. Examining the period of political consolidation after Alexander the Great's death, John Holton reconstructs how the successors used new frameworks of royal ideology to create long-term kingships. There is a particular focus on the deeper manoeuvres within the inter-generational impact, ranging from the influence of religion and family relations to succession planning and royal funerals. In this innovative book, Holton expertly reveals how powerful elites either succeeded or failed in creating lasting dynastic power. From the chaos of a collapsing empire to the solidification of a new model for autocratic

power the consolidation of the institution of Hellenistic kingship across the generation of Alexander's successors 323-276 BC is comprehensively investigated With a comparative perspective and detailed studies of diverse evidence this is the first dedicated study of the consolidation of Hellenistic kingship and the first to put these beginnings in an international context

Alexander's Marshals Waldemar Heckel, 2016-08-05 This substantially revised and updated second edition of *The Marshals of Alexander's Empire* 1992 examines Alexander's most important officers who commanded army units and were involved in military and political deliberations Chapters on these men have been expanded giving greater attention to personalities bias in the sources and the social as well as military setting including more on familial connections and regional origins in an attempt to create a better understanding of factions The major confrontations military and political are treated in greater detail within the biographies and a discussion of the organization and command structure of the Macedonian army has been added

In Search Of The Lost Testament of Alexander the Great David Grant, 2017-01-28 A unique backstory of Alexander and his successors the biased historians' deceptions wars generals and the tale of the literature that preserved them Babylon mid June 323 BCE the gateway of the gods prostrated in the Summer Palace of Nebuchadnezzar II on the east bank of the Euphrates wracked by fever and having barely survived another night King Alexander III the ruler of Macedonia for 12 years and 7 months had his senior officers congregate at his bedside Abandoned by Fortune and the healing god Asclepius he finally acknowledged he was dying Some 2,340 years on five barely intact accounts survive to tell a hardly coherent story At times in close accord though more often contradictory they conclude with a melee of death scene rehashes all of them suspicious the first portrayed Alexander dying silent and intestate he was Homeric and vocal in the second the third detailed his Last Will and Testament though it is attached to the stuff of romance Which account do we trust In *In Search Of The Lost Testament Of Alexander The Great* is the result of a decade of contemplations on Alexander presented as a rich thematic narrative Grant describes as the backstory behind the history of the great Macedonian and his generals Taking an uncompromising investigative perspective Grant delves into the challenges faced by Alexander's unique tale the forgeries and biased historians the influences of rhetoric romance philosophy and religion on what was written and how Alexander's own mercurial personality is vividly dissected and the careers and the wars of his successors are presented with a unique eye But the book never loses sight of central aim to unravel the mystery behind Alexander's unconvincingly reported intestate death And out of Grant's research emerges one unavoidable verdict after 2,340 years the Last Will and Testament of Alexander III of Macedonia needs to be extracted from romance and reinstated to its rightful place in mainstream history Babylon in June 323 BCE Although the result a decade of academic research In *In Search Of The Lost Testament Of Alexander The Great* is written in an entertaining and engaging style that opens the subject to both scholars and the casual reader of history looking to learn more about the Macedonian king and the men who made his story It concludes with a wholly new interpretation of the death of Alexander the Great and the mechanism behind the wars of

succession that followed

The Enigmatic Realm of **Alexander The Great Themes And Issues**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Within the captivating pages of **Alexander The Great Themes And Issues** a literary masterpiece penned by way of a renowned author, readers attempt a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting impact on the hearts and minds of people who partake in its reading experience.
