Finally, the text covers medical terminologies and classification systems and outlines the basics of reimbursement systems. Features: Each chapter begins with learning objectives and key terms to give the reader a synopsis of what he/she should expect to learn. Additional resources are listed at the end of each chapter for further exploration of the information covered in the chapter. A glossary is included for quick reference of main terms presented throughout the text. An accompanying Instructor's Manual provides review exercises which recap the important points as well as lab assignments that allow students to apply the information in a practical setting.
