Combat Death in Contemporary American Culture Agnieszka Soltysik Monnet, 2020-12-16 *Combat Death in Contemporary American Culture* Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination *Blockbusters and the Ancient World* Chris Davies, 2019-03-21 Following the release of Ridley Scott's *Gladiator* in 2000 the ancient world epic has experienced a revival in studio and audience interest Building on existing scholarship on the Cold War epics of the 1950s 60s including *Ben Hur* *Spartacus* and *The Robe* this original study explores the current cycle of ancient world epics in cinema within the social and political climate created by September 11th 2001 Examining films produced against the backdrop of the War on Terror and subsequent invasions of Iraq and Afghanistan this book assesses the relationship between mainstream cinema and American society through depictions of the ancient world conflict and faith Davies explores how these films evoke depictions of the Second World War the Vietnam War and the Western in portraying warfare in the ancient world as well as discussing the influence of genre hybridisation narration and reception theory He questions the extent to which ancient world epics utilise allegory analogy and allusion to parallel past and present in an industry often dictated by market forces Featuring analysis of *Alexander* *Troy* *300* *Centurion* *The Eagle* *The Passion of the Christ* and more this book offers new insight on the continued evolution of the ancient world epic in cinema

Focus On: 100 Most Popular Drama Films Based on Actual Events Wikipedia contributors, **Contemporary Cinema and 'Old Age'** Josephine Dolan, 2018-02-06 This book is the first to explore old age in cinema at the intersection of gender ageing celebrity and genre studies It takes its cue from the dual meanings of silvering economics and ageing and explores shifting formulations of old age and gender in contemporary cinema Broad in its scope the book establishes the importance of silver audiences to the survival of cinema exhibition while also forging connections between the pleasures of old age films consumer culture the economy of celebrity and the gendered silvering of stardom The chapters examine gendered genres such as romantic comedies action and heist movies the prosthetics of costume and CGI enabled age transformations Through this analysis Josephine Dolan teases out the different meanings of ageing masculinity and femininity offered in contemporary cinema She identifies ageing femininity as the pathologised target of rejuvenation while masculine ageing is seen to enhance

an enduring youthfulness This book has interdisciplinary appeal and will engage scholars interested in old age and gender representations in contemporary cinema **American Cinema in the Shadow of 9/11** Terence McSweeney, 2016-12-05

American Cinema in the Shadow of 9/11 is a ground breaking collection of essays by some of the foremost scholars writing in the field of contemporary American film Through a dynamic critical analysis of the defining films of the turbulent post 9/11 decade the volume explores and interrogates the impact of 9/11 and the War on Terror on American cinema and culture In a vibrant discussion of films like American Sniper 2014 Zero Dark Thirty 2012 Spectre 2015 The Hateful Eight 2015 Lincoln 2012 The Mist 2007 Children of Men 2006 Edge of Tomorrow 2014 and Avengers Age of Ultron 2015 noted authors Geoff King Guy Westwell John Shelton Lawrence Ian Scott Andrew Schopp James Kendrick Sean Redmond Steffen Hantke and many others consider the power of popular film to function as a potent cultural artefact able to both reflect the defining fears and anxieties of the tumultuous era but also shape them in compelling and resonant ways *Hollywood's Imperial Wars* Armando José Prats, 2024-04-16

When the Vietnam War punctured the myth of American military invincibility Hollywood needed a new kind of war movie The familiar triumphal narrative was relegated to history and with it the heroic legacy that had passed from one generation to the next for more than two hundred years How Hollywood helped create and instill the American myth of heroic continuity and how films revised that myth after the Vietnam War is what Armando José Prats explores in Hollywood's Imperial Wars The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood's earlier representations of Americans at war from the mythic heroism of a film like Sands of Iwo Jima to the rupture of that myth in films such as The Deer Hunter Apocalypse Now and Platoon As early as the mid 1940s Prats suggests fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth anxieties reflected in the insistent aggressive patriotism in films of the period In this context Prats considers the immeasurable cultural importance of John Wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in World War II Prats reveals how historical and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers American war movies in Prats's analysis were forever altered by the loss in Vietnam Even movies like American Sniper that exalt war heroes are marked as much by the failure of the heroic tropes of old Hollywood war movies as by the tragic turn of actual historical events Tracing what Prats calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts *TLA Film, Video, & DVD Guide, 2002-2003* David Bleiler, 2025-09-23
