The American Monthly Review of Reviews Albert Shaw, 1905 **Contemporary Latin American Revolutions** Marc Becker, 2022-01-11
Revolutions are a commonly studied but only vaguely understood historical phenomenon. Now updated to include the perspectives of grassroots revolutionary movements and biographies of often marginalized voices, this clear and concise text extends our understanding with a critical narrative analysis of key case studies: the 1910-1920 Mexican Revolution, the 1944-1954 Guatemalan Spring, the 1952-1964 MNR-led revolution in Bolivia, the Cuban Revolution that triumphed in 1959, the 1970-1973 Chilean path to socialism, the leftist Sandinistas in Nicaragua in power from 1979-1990, failed guerrilla movements in Colombia, El Salvador, and Peru, and the Bolivarian Revolution in Venezuela after Hugo Chávez's election in 1998. Historian Marc Becker opens with a theoretical introduction to revolutionary movements, including a definition of what revolution means and an examination of factors necessary for a revolution to succeed. He analyzes revolutions through the lens of those who participated and explores the sociopolitical conditions that led to a revolutionary situation, the differing responses to those conditions, and the outcomes of those political changes. Each case study provides an interpretive explanation of the historical context in which each movement emerged, its main goals and achievements, its shortcomings, its outcome, and its legacy. The book concludes with an analysis of how elected leftist governments in the twenty-first century continue to struggle with issues that revolutionaries confronted throughout the twentieth century.

Paul Le Blanc is a professor of History at La Roche College and author of Choice Award-winning book *A Freedom Budget for All Americans*.
[American Monthly Review of Reviews](#), 1893 [The Second Battle for Africa](#) Erik S. McDuffie, 2024-11-08
In *The Second Battle for Africa*, Erik S. McDuffie establishes the importance of the US Midwest to twentieth-century global Black history, internationalism, and radicalism. McDuffie shows how cities like Chicago, Detroit, and Cleveland, as well as rural areas in the heartland, became central and enduring incubators of Marcus Garvey's Black nationalist Universal Negro Improvement Association (UNIA) and its offshoots. Throughout the region, Black thinkers, activists, and cultural workers like the Grenada-born activist Louise Little championed Black freedom. McDuffie explores Garveyism and its changing facets from the 1920s onward, including the role of Black midwesterners during the emergence of fascism in the 1930s, the postwar US Black Freedom Movement, and African decolonization. The rise of the Nation of Islam and Malcolm X in the 1950s and 1960s, and the continuing legacy of Garvey in today's Black Midwest. Throughout, McDuffie evaluates the possibilities, limitations, and

gendered contours of Black nationalism radicalism and internationalism in the UNIA and Garvey inspired movements In so doing he unveils new histories of Black liberation and Global Africa *Prophesy Deliverance! 40th Anniversary Expanded Edition* Cornell West,2022-11-08 In this his premiere work Cornel West challenges African Americans to consider the incorporation of Marxism into their theological perspectives thereby adopting the mindset that it is class more so than race that renders one powerless in America His work reflects political and cultural perspectives borne out of his own formative life experiences Decades later his arguments continue to capture the theological imagination of many and influence the critical engagement of generations of scholars In this fortieth anniversary edition West invites six prominent scholars whose respective work are grounded in various aspects of black political cultural and theological thought into dialogue with this work each writing one chapter plus a foreword by Jonathan Lee Walton Continuing and expanding on the revolutionary discourses that West introduced in the first published work each new essay provides nuanced lens for thinking about movements of liberation in today s African American communities **The Oxford Handbook of Land Politics** Saturnino M. Borrás,Jennifer C. Franco,Researcher Jennifer C Franco,2025 Access to land in all its multiple meanings is necessarily diverse complex and contentious and facilitating and maintaining such access constitutes a mosaic of social relations and institutional instruments rather than the minimalist and simplistic reduction of land to land property that in turn tends to be interpreted always as individual private property The Oxford Handbook of Land Politics offers heterodox analytical tools to help the reader make sense of the complexity of the politics of land *iTake-Over* David Arditi,2020-06-23 The second edition of iTake Over The Recording Industry in the Streaming Era sheds light on the way large corporations appropriate new technology to maintain their market dominance in a capitalist system To date scholars have erroneously argued that digital music has diminished the power of major record labels In iTake Over sociologist David Arditi suggests otherwise adopting a broader perspective on the entire issue by examining how the recording industry strengthened copyright laws for their private ends at the expense of the broader public good Arditi also challenges the dominant discourse on digital music distribution which assumes that the recording industry has a legitimate claim to profitability at the expense of a shared culture Arditi specifically surveys the actual material effects that digital distribution has had on the industry Most notable among these is how major record labels find themselves in a stronger financial position today in the music industry than they were before the launch of Napster largely because of reduced production and distribution costs and the steady gain in digital music sales Moreover instead of merely trying to counteract the phenomenon of digital distribution the RIAA and the major record labels embraced and then altered the distribution system
