Passing Novels in the Harlem Renaissance María del Mar Gallego Durán, 2003 This book offers an insightful study of the significance of passing novels for the literary and intellectual debate of the Harlem Renaissance Author Mar Gallego effectively uncovers the presence of a subversive component in five of these novels by James Weldon Johnson George Schuyler Nella Larsen and Jessie Fauset turning them into useful tools to explore the passing phenomenon in all its richness and complexity Her compelling study intends to contribute to the ongoing revision of the parameters conventionally employed to analyze passing novels by drawing attention to a great variety of textual strategies such as double consciousness parody and multiple generic covers Examining the hybrid nature of these texts Gallego skillfully highlights their radical critique of the status quo and their celebration of a distinct African American identity Well researched and stimulating to read Passing Novels in the Harlem Renaissance is an impressive work of scholarship and interpretation

Stories of Nation Christopher Hebert,Martin Griffin,2024-01-12 Throughout American history there has been an oddly close relationship between the seductive appeals of narrative fiction and those of political rhetoric and advocacy The aim of *Stories of Nation Fictions Politics and the American Experience* is to explore what political narratives and the cultural poetics behind them reveal about the way our personal and intimate lives are deeply connected with the public arena and the political process The first section of the book *The Politics of Fictions* contains essays focused on works of fiction consciously dramatizing the political realm The second group of contributions *The Fictions of Politics* explores structures and motifs from the narrative arts in discourses of American political life and the interactions of public institutions and policy with forms of fictional representation from novels to popular music and TV drama The essays presented here broaden the conversation in American literary studies about what constitutes the political in literature and culture by reintroducing the dimension of institutional or representative politics Likewise *Stories of Nation* aims to repair the lines of communication between the idea that all fiction is political and the view that political speech is a subgenre of literature all the more in need of examination in a highly polarized society The range of perspectives in *Stories of Nation* will engage students of literature popular culture and politics alike
