Shibusawa**

Americas Geisha Ally Reimagining The Japanese Enemy

Valerie J. Matsumoto

Americas Geisha Ally Reimagining The Japanese Enemy:

America's Geisha Ally Naoko Shibusawa, 2009-06-30 During World War II Japan was vilified by America as our hated enemy. As the Cold War heated up however the U S government decided to make Japan its bulwark against communism in Asia. In this revelatory work Naoko Shibusawa charts the remarkable reversal from hated enemy to valuable ally that occurred in the two decades after the war.

Alternate Currents Justin B. Stein, 2023 In the second half of the twentieth century Reiki went from an obscure therapy practiced by a few thousand Japanese and Japanese Americans to a global phenomenon. By the early twenty first century people in nearly every corner of the world have undergone the initiations that authorize them to channel a cosmic energy known as Reiki to heal body mind and spirit. They lay hands on themselves and others use secret symbols and incantations to send Reiki to distant recipients and strive to follow five precepts to cultivate their spiritual growth. Reiki's international rise and development is due to the work of Hawayo Takata. 1900-1980 a Hawai i born Japanese American woman who brought Reiki out of Japan and adapted it for thousands of students in Hawai i and North America shaping interconnections across the North Pacific region as well as cultural transformations over the transwar period spanning World War II.

Alternate Currents: Reiki's Circulation in the Twentieth Century North Pacific analyzes how from her training in Japan in the mid 1930s to her death in Iowa in 1980 Takata built a vast trans Pacific network that connected Japanese American laborers on Hawai i plantations to social elites in Tokyo Hollywood and New York middle class housewives in American suburbs and off the grid tree planters in the mountains of British Columbia. Using recently uncovered archival materials and original oral histories Stein examines how these relationships between healer and patient master and disciple became deeply infused with values of their time and place and how they interplayed with Reiki's circulation performance and meanings along with broader cultural shifts in the twentieth century North Pacific. Highly readable and informative each chapter is structured around a period in the life of Takata the charismatic rags to riches architect of the network in which Reiki spread for decades.

Alternate Currents explores Reiki as an exemplary transnational spiritual therapy demonstrating how lived practices transcend artificial distinctions between religion and medicine and circulate in global systems while maintaining strong connections with the practices homeland.

Mutual Perceptions and Images in Japanese-German Relations, 1860-2010, 2017-06-06 **Mutual Perceptions and Images in Japanese German Relations 1860-2010** examines the mutual images formed between Japan and Germany from the mid nineteenth to twenty first centuries and the influence of these images on the development of bilateral relations. Unlike earlier research on Japanese German relations which focused on the similarity of these countries historical trajectories this publication presents a more nuanced picture. It relativizes perceptions of a special spiritual relationship between Japan and Germany as well as their commonalities of national character through an exploration of previously untapped historical visual and textual sources. With essays by sixteen leading scholars in the field this collection is an invaluable contribution to the historiography of

modern Japan and Germany and to the field of international relations Contributors are Hans Joachim Bieber Fukuoka Mariko Hakoishi Hiroshi Iwasa Takur Kat Y ko Kawakita Atsuko Gerhard Krebs Kud Akira Heinrich Menkhaus Danny Orbach Peter Pantzer Sven Saaler Sat Takumi Volker Stanzel Suzuki Naoko Tajima Nobuo Tano Daisuke and Rolf Harald Wippich The Oxford Handbook of the Cold War Richard H. Immerman, Petra Goedde, 2013-01-31 The Oxford Handbook of the Cold War offers a broad reassessment of the period war based on new conceptual frameworks developed in the field of international history Nearing the 25th anniversary of its end the cold war now emerges as a distinct period in twentieth century history yet one which should be evaluated within the broader context of global political economic social and cultural developments The editors have brought together leading scholars in cold war history to offer a new assessment of the state of the field and identify fundamental questions for future research The individual chapters in this volume evaluate both the extent and the limits of the cold war s reach in world history They call into question orthodox ways of ordering the chronology of the cold war and also present new insights into the global dimension of the conflict Even though each essay offers a unique perspective together they show the interconnectedness between cold war and national and transnational developments including long standing conflicts that preceded the cold war and persisted after its end or global transformations in areas such as human rights or economic and cultural globalization Because of its broad mandate the volume is structured not along conventional chronological lines but thematically offering essays on conceptual frameworks regional perspectives cold war instruments and cold war challenges The result is a rich and diverse accounting of the ways in which the cold war should be positioned within the broader context of world history *Consuming Japan* Andrew C. McKevitt, 2017-08-31 This insightful book explores the intense and ultimately fleeting moment in 1980s America when the future looked Japanese Would Japan s remarkable post World War II economic success enable the East Asian nation to overtake the United States Or could Japan s globe trotting corporations serve as a model for battered U S industries pointing the way to a future of globalized commerce and culture While popular films and literature recycled old anti Asian imagery and crafted new ways of imagining the yellow peril and formal U S Japan relations remained locked in a holding pattern of Cold War complacency a remarkable shift was happening in countless local places throughout the United States Japanese goods were remaking American consumer life and injecting contemporary globalization into U S commerce and culture What impact did the flood of billions of Japanese things have on the ways Americans produced consumed and thought about their place in the world From autoworkers to anime fans Consuming Japan introduces new unorthodox actors into foreign relations history demonstrating how the flow of all things Japanese contributed to the globalizing of America in the late twentieth century **City Girls** Valerie J. Matsumoto, 2016-12-15 Even before wartime incarceration Japanese Americans largely lived in separate cultural communities from their West Coast neighbors The first generation American children the Nisei were American citizens spoke English and were integrated in public schools yet were also socially isolated in many ways from their peers and subject to racism Their

daughters especially found rapport in a flourishing network of ethnocultural youth organizations Until now these groups have remained hidden from the historical record both because they were girls groups and because evidence of them was considered largely ephemeral In her second book Valerie Matsumoto has recreated this hidden world of female friendship and comradeship tracing it from the Jazz age through internment to the postwar period Matsumoto argues that these groups were more than just social outlets for Nisei teenage girls Rather she shows how they were critical networks during the wartime upheavals of Japanese Americans Young Nisei women helped their families navigate internment and more importantly recreated communities when they returned to their homes in the immediate postwar period This book will be a considerable contribution to our understanding of Japanese life in America youth culture ethnic history urban history and Western history Matsumoto has interviewed and gained the trust of many now old women who were part of these girls clubs

The Intimacies of Conflict Daniel Y. Kim, 2020-11-03 Winner 2020 Peter C Rollins Prize given by the Northeast Popular American Culture Association Enables a reckoning with the legacy of the Forgotten War through literary and cinematic works of cultural memory Though often considered the forgotten war lost between the end of World War II and the start of the Cold War the Korean War was as Daniel Y Kim argues a watershed event that fundamentally reshaped both domestic conceptions of race and the interracial dimensions of the global empire that the United States would go on to establish He uncovers a trail of cultural artefacts that speaks to the trauma experienced by civilians during the conflict but also evokes an expansive web of complicity in the suffering that they endured Taking up a range of American popular media from the 1950s Kim offers a portrait of the Korean War as it looked to Americans while they were experiencing it in real time Kim expands this archive to read a robust host of fiction from US writers like Susan Choi Rolando Hinojosa Toni Morrison and Chang rae Lee and the Korean author Hwang Sok yong The multiple and ongoing historical trajectories presented in these works testify to the resurgent afterlife of this event in US cultural memory and of its lasting impact on multiple racialized populations both within the US and in Korea *The Intimacies of Conflict* offers a robust multifaceted and multidisciplinary analysis of the pivotal but often unacknowledged consequences of the Korean War in both domestic and transnational histories of race

The New Cambridge History of Japan: Volume 3, The Modern Japanese Nation and Empire, c.1868 to the Twenty-First Century Laura Hein, 2023-06-08 This major new volume presents innovative recent scholarship on Japan s modern history including its imperial past and transregional entanglements An international team of leading scholars offer accessible and thought provoking essays that present an expansive global vision of the archipelago s history from c 1868 to the twenty first century Japan was the first non Western society to become a modern nation and empire to industrialize and to deliver a high standard of living to virtually all its citizens capturing international attention ever since These Japanese efforts to reshape global hierarchies powered a variety of debates and conflicts both at home and with people and places beyond Japan s shores Drawing on the latest Japanese and English language scholarship this volume highlights Japan s distinctive and fast changing

history *Japan's Security Renaissance* Andrew L. Oros, 2017-03-07 For decades after World War II Japan chose to focus on soft power and economic diplomacy alongside a close alliance with the United States eschewing a potential leadership role in regional and global security Since the end of the Cold War and especially since the rise of Prime Minister Shinzo Abe Japan's military capabilities have resurged In this analysis of Japan's changing military policy Andrew L Oros shows how a gradual awakening to new security challenges has culminated in the multifaceted security renaissance of the past decade Despite openness to new approaches however three historical legacies contested memories of the Pacific War and Imperial Japan postwar anti militarist convictions and an unequal relationship with the United States play an outsized role In Japan's Security Renaissance Oros argues that Japan's future security policies will continue to be shaped by these legacies which Japanese leaders have struggled to address He argues that claims of rising nationalism in Japan are overstated but there has been a discernable shift favoring the conservative Abe and his Liberal Democratic Party Bringing together Japanese domestic politics with the broader geopolitical landscape of East Asia and the world Japan's Security Renaissance provides guidance on this century's emerging international dynamics **Contraceptive Diplomacy** Aiko Takeuchi-Demirci, 2018-01-09 A transpacific history of clashing imperial ambitions Contraceptive Diplomacy turns to the history of the birth control movement in the United States and Japan to interpret the struggle for hegemony in the Pacific through the lens of transnational feminism As the birth control movement spread beyond national and racial borders it shed its radical bearings and was pressed into the service of larger ideological debates around fertility rates and overpopulation global competitiveness and eugenics By the time of the Cold War a transnational coalition for women's sexual liberation had been handed over to imperial machinations enabling state sponsored population control projects that effectively disempowered women and deprived them of reproductive freedom In this book Aiko Takeuchi Demirci follows the relationship between two iconic birth control activists Margaret Sanger in the United States and Ishimoto Shizue in Japan as well as other intellectuals and policymakers in both countries who supported their campaigns to make sense of the complex transnational exchanges occurring around contraception The birth control movement facilitated U S expansionism exceptionalism and anti communist policy and was welcomed in Japan as a hallmark of modernity By telling the story of reproductive politics in a transnational context Takeuchi Demirci draws connections between birth control activism and the history of eugenics racism and imperialism

Adopting the Tune of Term: An Mental Symphony within **Americas Geisha Ally Reimagining The Japanese Enemy**

In a world consumed by monitors and the ceaseless chatter of quick communication, the melodic splendor and mental symphony developed by the prepared word frequently diminish in to the backdrop, eclipsed by the relentless noise and disruptions that permeate our lives. Nevertheless, set within the pages of **Americas Geisha Ally Reimagining The Japanese Enemy** a charming fictional prize filled with natural feelings, lies an immersive symphony waiting to be embraced. Constructed by a wonderful musician of language, that captivating masterpiece conducts visitors on an emotional trip, well unraveling the concealed melodies and profound affect resonating within each cautiously constructed phrase. Within the depths of this touching review, we will discover the book is main harmonies, analyze its enthralling writing fashion, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
