Reference Manual serves as a comprehensive guide to understanding the science techniques and business aspects of modern poultry production. As one of the fastest growing sectors of agriculture, poultry plays a vital role in global food security by providing essential protein energy and nutrients to millions worldwide. This book explores innovative methods for increasing poultry production while maintaining quality and sustainability, especially in the context of rising global demand driven by population growth, urbanization, and income increases. The manual covers key topics such as poultry breeding, embryology, hatchery management, nutrition, disease control, housing, and marketing. It also delves into advanced areas like biotechnology, genetics, and processing. Designed for students, professionals, and aspiring leaders, this book equips readers with the skills needed to address the challenges of modern poultry production, from smallholder farming to large-scale operations.

Handbook of Research on Advances and Applications in Refrigeration Systems and Technologies Gaspar, Pedro Dinis, da Silva, Pedro Dinho, 2015-08-28. In recent years, the sustainability and safety of perishable foods has become a major consumer concern, and refrigeration systems play an important role in the processing, distribution, and storage of such foods. To improve the efficiency of food preservation technologies, it is necessary to explore new technological and scientific advances both in materials and processes. The *Handbook of Research on Advances and Applications in Refrigeration Systems and Technologies* gathers state-of-the-art research related to thermal performance and energy efficiency. Covering a diverse array of subjects, from the challenges of surface area frost formation on evaporators to the carbon footprint of refrigerant chemicals, this publication provides a broad insight into the optimization of cold supply chains and serves as an essential reference text for undergraduate students, practicing engineers, researchers, educators, and policymakers.
