Drugs in Sport is the most comprehensive and accurate text on the emotive, complex, and critical subject of performance enhancement and doping within sport. Thoroughly updated in light of the latest World Anti-Doping Code and taking into account the latest regulations, procedures, and landmark cases, this 8th edition explores the science behind drug use in sport, as well as its ethical, social, political, and administrative context. Introducing an increased focus on athletes with specific needs and on corrupt doping practices, the book covers key topics including an evaluation of the prevalence of doping in sport, the latest doping control regulations stipulated by the World Anti-Doping Agency (WADA), the science and side effects of each major class of drug used in sport, cutting-edge issues such as drug use by transgender athletes, medical and anti-doping considerations for athletes with an impairment, governance and corruption in sport, including institutionalised doping, issues surrounding sport nutrition and supplement use, in sport, medical, and pharmaceutical services at major sporting events. Accessibly written and supported throughout with illustrative case studies and data, *Drugs in Sport* provides a crucial and objective resource for students and researchers, athletes, sports scientists, coaches, and athlete support staff, journalists, sports administrators, and policymakers alike. **Dietary Supplements** Connie Goldsmith, 2015-09-01. Are you looking for a healthy body? Quick weight loss with no dieting? Top athletic performance without breaking a sweat? Websites, infomercials, magazine ads, and celebrity tweets make an astonishing array of claims about the improvement to health and performance that will come from using dietary supplements. If you take supplements, you're not alone. The majority of Americans take at least one dietary supplement every day. Consumers have tens of thousands of supplements to choose from, spending an estimated \$32 billion each year on such products. By law, the US Food and Drug Administration has limited regulatory powers over dietary supplements. Many supplements are manufactured overseas in nations with loose quality control standards. Scientific evidence supporting the safety and effectiveness of supplements is

minimal and in some cases supplements have led to serious illness and death Registered nurse Connie Goldsmith takes an in depth look at the wide world of dietary supplements vitamins minerals herbal supplements weight loss products performance enhancing products energy boosters and more What do doctors dieticians and other experts have to say Is it ever safe to take a supplement What are the red flags to watch for when considering these products Goldsmith gives teens the tools to be smart consumers urging all readers to consult with a qualified medical professional when considering any supplement
