focuses on our intrinsically bioregional locus as followers of Jesus and urges us to become disciples of our watersheds. Bibliographic framing essays by Myers trace his journey into a bioregionalist Christian faith and practice and offer reflections on incarnational theology, hermeneutics, and ecclesiology. The essays feature more than a dozen activists, educators, and practitioners under the age of forty whose work and witness attest to a growing movement of resistance and reimagination across North America. This anthology overviews the bioregional paradigm and its theological and political significance for local sustainability, restorative justice, and spiritual renewal. Contributors reread both biblical texts and churchly practices such as mission, baptism, and liturgy through the lens of replacement. Herein is a comprehensive and engaged call for a Transition church that can help turn our history around toward environmental resiliency and social justice by passionate advocates on the front lines of watershed discipleship.
