strength and fitness professionals because their experience with numerous people over many years has shown them what works and what doesn't. So according to the professionals the best abdominal routine starts with 1 Swiss Ball Ab Crunches followed by 2 Inverse Crunches and then ending with 3 Ab Crunches. These are to be done in 3 sets of 12-15 reps. Crunches help tone your muscles but someone who is overweight has to lose the weight before they can see their muscles. This is the challenge of sticking with a fat loss diet. Even if you're not planning to go after 6 pack abs, strengthening your abdominal muscles is still important because strong abs reduce the risk of lower back injuries, help decrease low back pain if your back is already injured, and help to tone your whole torso. From a trainer's point of view, the most efficient and best abdominal routine consists of 1 ab crunches that bend the upper abdominal muscles and serve as the base for the whole workout, 2 inverse crunches that tone the lower abs, and 3 side folds that work on exercising the side/oblique muscles. Also, the American Council on Exercise declared Bicycle Crunches to be among the best abdominal exercises because it uses every muscle in the abs to develop a well-built torso. Exercising, eating well, and developing 6 pack abs is no mean deed. Uncovering those 6 pack abs needs constant checking of what, how much, and when one eats. Discipline and patience are definitely necessary. However, it must be repeated that even the best abdominal routine may not make the splashboard abs you're hoping to see if you have a slow metabolism. But there are ways to quicken your metabolism such as 1 healthy snacking between meals, 2 eating low glycemic index carbohydrates, 3 aerobic or cardio exercises, 4 drinking adequate water to stay perked up, 5 lifting weights, and 6 checking your food consumption. If you're able to strengthen your abdominal muscles, reduce your belly fat, and use a proven program that's already proven its effectiveness with others, your chances of developing those 6 pack abs is greatly increased.
