Being A Black Man At The Corner Of Progress And Peril:

African American History Reconsidered Pero Gaglo Dagbovie, 2010 This volume establishes new perspectives on African American history The author discusses a wide range of issues and themes for understanding and analyzing African American history the 20th century African American historical enterprise and the teaching of African American history for the 21st century *Being a Black Man* Kevin Merida, 2007-08-07 Over the last 100 years perhaps no segment of the American population has been more analyzed than black males The subject of myriad studies and dozens of government boards and commissions black men have been variously depicted as the progenitors of pop culture and the menaces of society their individuality often obscured by the narrow images that linger in the public mind Ten years after the Million Man March the largest gathering of black men in the nation's history Washington Post staffers began meeting to discuss what had become of black men in the ensuing decade How could their progress and failures be measured Their questions resulted in a Post series which generated enormous public interest and inspired a succession of dynamic public meetings It included the findings of an ambitious nationwide poll and offered an eye opening window into questions of race and black male identity questions gaining increasing attention with the emergence of Senator Barack Obama as a serious presidential contender At the end of the day the project revealed that black men are deeply divided over how they view each other and their country Now collected in one volume with several new essays as well as an introduction by Pulitzer Prizewinning novelist Edward P Jones these poignant and provocative articles let us see and hear black men like they've never been seen and heard before

The Education of Black Males in a 'Post-Racial' World Anthony L. Brown, Jamel K. Donnor, 2013-09-13 The Education of Black Males in a Post Racial World examines the varied structural and discursive contexts of race masculinities and class that shape the educational and social lives of Black males The contributing authors take direct aim at the current discourses that construct Black males as disengaged in schooling because of an autonomous Black male culture and explore how media social sciences school curriculum popular culture and sport can define and constrain the lives of Black males The chapters also provide alternative methodologies theories and analyses for making sense of and addressing the complex needs of Black males in schools and in society By expanding our understanding of how unequal access to productive opportunities and quality resources converge to systemically create disparate experiences and outcomes for African American males this volume powerfully illustrates that race still matters in post racial America This book was originally published as a special issue of Race Ethnicity and Education *IJER Vol 24-N4* International Journal of Educational Reform, 2015-09-03 The mission of the International Journal of Educational Reform IJER is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities As the only peer reviewed scholarly publication that combines authors voices without regard for the political affiliations perspectives or research methodologies IJER provides readers with a balanced view of all sides of the political and

educational mainstream To this end IJER includes but is not limited to inquiry based and opinion pieces on developments in such areas as policy administration curriculum instruction law and research IJER should thus be of interest to professional educators with decision making roles and policymakers at all levels turn since it provides a broad based conversation between and among policymakers practitioners and academicians about reform goals objectives and methods for success throughout the world Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes Finally it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U S and the world

The ^AOxford Handbook of Cultural Sociology Jeffrey C. Alexander, Ronald Jacobs, Philip Smith, 2012-01-26 A collection of essays on various topics from the perspective of cultural sociology based on the premise that ideas and beliefs retain autonomy from the social structures to which they refer and illuminate *The Last Chance* , *Re-Thinking Men* Anthony Synnott, 2024-05-31 Much writing on men in the field of gender studies tends to focus unduly almost exclusively on portraying men as villains and women as victims in a moral bi polar paradigm Re Thinking Men reverses the proclivity which ignores not only the positive contributions of men to society but also the male victims of life including the homeless the incarcerated the victims of homicide suicide accidents war and the draft and sexism as well as those affected by the failures of the health education political and justice systems Proceeding from a radically different perspective in seeking a more positive balanced and inclusive view of men and women this book presents three contrasting paradigms of men as heroes villains and victims Revised and updated and presenting data and studies from the United States Canada and the United Kingdom it offers a comparative and revised perspective on gender that will be of interest to scholars across a range of social sciences *Hidden in the Shadow of Truth* Reginald E. Hicks, 2010-05 Hidden in the Shadow of Truth was written by Reginald E Hicks neither to absolve nor to indict black males for their current social condition It was written rather to provide a comprehensive and accurate explanation as to why so many black males seem to be led by the nose toward the prison doors Why is it that black juveniles consistently outpace their white Hispanic and Asian counterparts by a margin of more than 2 to 1 in the commission of murders aggravated assaults weapons law violations forcible rapes robberies and motor vehicle thefts Why is it that blacks account for only 13 percent of the total U S population but a full 41 percent of the incarcerated Hicks explains that the mentality of many black youth is a product of a very unique socialization process wherein the family the school system the peer group and the mass media have collectively failed in their responsibilities making black boys more prone to choosing the path of incarceration or enslavement through criminality In this exceptional work Reginald E Hicks presents the truth the whole truth and nothing but the truth letting the chips fall where they may
