Alexander Romance In Persia And The East Ancient Narrative Supplementum:

The Alexander Romance in Persia and the East Richard Stoneman, Kyle Erickson, Ian Richard Netton, 2012 Alexander the Great of Macedon was no stranger to controversy in his own time Conqueror of the Greek states of Egypt and of the Persian Empire as well as many of the principalities of the Indus Valley he nevertheless became revered as well as vilified Was he simply a destroyer of the ancient civilizations and religions of these regions or was he a hero of the Persian dynasties and of Islam The conflicting views that were taken of him in the Middle East in his own time and the centuries that followed are still reflected in the tensions that exist between east and west today The story of Alexander became the subject of legend in the medieval west but was perhaps even more pervasive in the east The Alexander Romance was translated into Syriac in the sixth century and may have become current in Persia as early as the third century AD From these beginnings it reached into the Persian national epic the Shahnameh into Jewish traditions and into the Quran and subsequent Arab romance The papers in this volume all have the aim of deepening our understanding of this complex development If we can understand better why Alexander is such an important figure in both east and west we shall be a little closer to understanding what unites two often antipathetic worlds This volume collects the papers delivered at the conference of the same title held at the University of Exeter from July 26-29 2010 More than half the papers were by invited speakers and were designed to provide a systematic view of the subject the remainder were selected for their ability to carry research forward in an integrated way

Alexander the Great in the Early Christian Tradition Christian Thue Djurslev, 2019-12-12 What has Alexander the Great to do with Jesus Christ Or the legendary king's conquest of the Persian Empire 335-23 BCE to do with the prophecies of the Old Testament In many ways the early Christian writings on Alexander and his legacy provide a lens through which it is possible to view the shaping of the literature and thought of the early church in the Greek East and the Latin West This book articulates that fascinating discourse for the first time by focusing on the early Christian use of Alexander Delving into an impressively deep pool of patristic literature written between 130-313 CE Christian Thue Djurslev offers original interpretations of various important authors from the learned lawyer Tertullian to the Christian Cicero Lactantius and from the apologist Tatian to the first church historian Eusebius He demonstrates that the early Christian adaptations of the Alexandrian myths created a new tradition that has continued to develop and expand ever since This innovative work of reception studies is important reading for all scholars of Alexander the Great and early church history

The Syriac Legend of Alexander's Gate Tommaso Tesei, 2023 The Syriac Legend of Alexander's Gate is the first study of an apocalyptic work known as Syriac Alexander Legend It illustrates how this seminal text played a central role in the shaping of influential forms of apocalyptic ideology and in the development of important literary motifs of Medieval literature worldwide

Ancient Historiography on War and Empire Timothy Howe, Sabine Müller, Richard Stoneman, 2016-11-30 In the ancient Greek speaking world writing about the past meant balancing the reporting of facts with shaping and guiding the

political interests and behaviours of the present Ancient Historiography on War and Empire shows the ways in which the literary genre of writing history developed to guide empires through their wars Taking key events from the Achaemenid Persian Athenian Macedonian and Roman empires the 17 essays collected here analyse the way events and the accounts of those events interact Subjects include how Greek historians assign nearly divine honours to the Persian King the role of the tomb cult of Cyrus the Founder in historical narratives of conquest and empire from Herodotus to the Alexander historians warfare and financial innovation in the age of Philip II and his son Alexander the Great the murders of Philip II his last and seventh wife Kleopatra and her guardian Attalos Alexander the Great's combat use of eagle symbolism and divination Plutarch's juxtaposition of character in the Alexander Caesar pairing as a commentary on political legitimacy and military prowess and Roman Imperial historians using historical examples of good and bad rule to make meaningful challenges to current Roman authority In some cases the balance shifts more towards the literary and in others more towards the historical but what all of the essays have in common is both a critical attention to the genre and context of history writing in the ancient world and its focus on war and empire

Other worlds and the narrative construction of otherness Esterino Adami, Francesca Bellino, Alessandro Mengozzi, 2017-10-10T00:00:00+02:00 The papers collected in this volume deal with the explorations of Science Fiction Fantasy and more generally the representation of otherness through the narrative construction of fantastic imaginary appalling or attractive places stories and figures Contributions are arranged in four main sections The first section Other spaces new worlds deals with Hindi and Arabic Science Fiction The second section Constructing forms of otherness analyses the narrative and psychological mechanisms that give forms to a stereotype or archetypal image of the threatening Other The third section Re shaping style's language's and discourse's of otherness is centred on the idea of language as a tool to build up styles genres and texts and literature as an escape from disappointing history and a cross cultural wandering space of narrative ghosts The fourth section Circulating fearful otherness tests the limits and heuristic potential of a philological approach in reconstructing the wide circulation of motifs and characters from antiquity to post modernity

Little, Nicola McDonald, 2018 Theoretically savvy and polemical arguments about a broad range of French Middle English and Mediterranean romances that will revise scholars and students understanding of what medieval romances are and more importantly what they do to and for their readers

Masculine Ideals and Alexander the Great Jaakkojuhani Peltonen, 2023-11-23 From premodern societies onward humans have constructed and produced images of ideal masculinity to define the roles available for boys to grow into and images for adult men to imitate The figure of Alexander the Great has fascinated people both within and outside academia As a historical character military commander cultural figure and representative of the male gender Alexander's popularity is beyond dispute Almost from the moment of his death Alexander's deeds have had a paradigmatic aspect for over 2300 years he has been represented as a paragon of manhood an example to be followed by other men and through his myth people have

negotiated assumptions about masculinity This work breaks new ground by considering the ancient and medieval reception of Alexander the Great from a gender studies perspective It explores the masculine ideals of the Greco Roman and medieval pasts through the figure of Alexander the Great analysing the gendered views of masculinities in those periods and relating them to the ways in which Alexander s masculinity was presented It does this by investigating Alexander s appearance and its relation to definitions of masculinity the way his childhood and adulthood are presented his martial performance and skill proper and improper sexual behaviour and finally through his emotions and mental attributes Masculine Ideals and Alexander the Great will appeal to students and scholars alike as well as to those more generally interested in the portrayal of masculinity and gender particularly in relation to Alexander the Great and his image throughout history The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

With Alexander in India and Central Asia Claudia Antonetti,P Biagi,2017-06-30 Alexander conquered most parts of the Western World but there is a great deal of controversy over his invasion of India the least known of his campaigns In BC 327 Alexander came to India and tried to cross the Jhelum river for the invasion but was then confronted by King Porus who ruled an area in what is now the Punjab According to Indian history he was stopped by Porus at his entry into the country but most of the world still believes that Alexander won the battle Fearing the prospect of facing other large armies and exhausted by years of campaigning Alexander s army mutinied at the Hyphasis River refusing to march farther east This river thus marks the easternmost extent of Alexander s conquests Twelve papers in this volume examine aspects of Alexander s Indian campaign the relationship between him and his generals the potential to use Indian sources and evidence for the influence of policies of Alexander in neighboring areas such as Iran and Russia

The Wisdom of the Aramaic Book of Ahiqar Seth Bledsoe,2021-10-25 This book offers fresh readings of the Aramaic book of Ahiqar an oft underappreciated ancient wisdom text In undertaking a comprehensive literary analysis incorporating both the drama and the sayings together Bledsoe shows that Ahiqar s didactic impulse is founded on a sense of uncertainty about life offering advice for those in times of distress much like the titular character himself While Ahiqar shares many features with instructional literature like Proverbs the ambiguous cosmic and

social order imagined in the text resonate more strongly with the likes of Qoheleth or Job Bledsoe also takes seriously the Elephantine context suggesting that the social and political ethic evinced by the work would have resonated strongly with the Judean community in Achaemenid Egypt
