American Sniper Ending:

The Hell of War Comes Home Owen W. Gilman Jr., 2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II s literature and film Like few other books Gilman s volume studies these new texts among them Kevin Powers s debut novel *The Yellow Birds* and Phil Klay s short stories *Redeployment* along with the films *The Hurt Locker* *American Sniper* and *Billy Lynn s Long Halftime Walk* For perspective Gilman also looks at some touchstones from the Vietnam War Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding

Last Stands from the Alamo to Benghazi Frank Wetta, Martin Novelli, 2016-12-08 *Last Stands from the Alamo to Benghazi* examines how filmmakers teach Americans about the country s military past Examining twenty three representative war films and locating them in their cultural and military landscape the authors argue that

Hollywood's view of American military history has evolved in two phases. The first phase, extending from the very beginnings of filmmaking to the Korean War, projected an essential patriotic triumphalism. The second phase, from the Korean and Vietnam Wars to the present, reflects a retreat from consensus and reflexive patriotism. In describing these phases, the authors address recurring themes such as the experience of war and combat, the image of the American war hero, race, gender, national myths, and more. With helpful film commentaries that extend the discussion through popular movie narratives, this book is essential for anyone interested in American military and film history.

The Postnormal Times Reader Ziauddin Sardar, 2019-01-01. IIIT Books In Brief Series is a valuable collection of the Institute's key publications written in condensed form to give readers a core understanding of the main contents of the original. Postnormal times are best defined as an in-between period where old orthodoxies are dying, new ones have yet to be born, and very few things seem to make sense or as Ezio Mauro puts it, we are hanging between the no longer and the not yet, and thus we are necessarily unstable, nothing around us is fixed, not even our direction of travel. The postnormal times theory attempts to make sense of a rapidly changing world where uncertainty is the dominant theme and ignorance has become a valuable commodity. The *Postnormal Times Reader* is a pioneering anthology of writings on the contradictory, complex, and chaotic nature of our era. It covers the origins, theory, and methods of postnormal times and examines a host of issues ranging from climate change, governance, Middle East, to religion and science from the perspective of postnormal times. By mapping some of the key local and global issues of our transitional age, the Reader suggests a way of navigating our turbulent futures.

Combat Death in Contemporary American Culture Agnieszka Soltysik Monnet, 2020-12-16. *Combat Death in Contemporary American Culture* Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic: combat death. Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks: melodrama, adventure, and horror. Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable. Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure. Thus, this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination.

Stalkers and Shooters Kevin Dockery, 2007-07-03. Now in paperback. From the author of the Navy SEALs Oral History series, an intimate look at the world's most efficient and deadly warriors. Snipers have a rich history. This fascinating book follows their tasks and techniques from the Revolutionary and Civil Wars through both World Wars to the Korean War and Vietnam, the genesis of modern sniping to the current conflicts in the Middle East. Also, readers will see how sniping has evolved on the civilian side in law enforcement. Readers will learn about the tools of the trade but most importantly, they will hear from the experts themselves: military snipers as well as

civilian police and SWAT snipers Capturing the suspense and action of the hunt the words of these men draw readers into the close knit little known world of men who need only one bullet to get the job done **A 'Toxic Genre'** Martin

Barker,2011-06-03 Over the last five years a cycle of films has emerged addressing the ongoing Iraq conflict Some became well known and one of them The Hurt Locker won a string of Oscars But many others disappeared into obscurity What is it about these films that led Variety to dub them a toxic genre Martin Barker analyses the production and reception of these recent Iraq war films Among the issues he examines are the borrowing of soldiers YouTube styles of self representation to generate an authentic Iraq experience and how they take refuge in apolitical post traumatic stress disorder Barker also looks afresh at some classic issues in film theory the problems of accounting for film failures the shaping role of production systems the significance of genre naming and the impact of that toxic label A Toxic Genre is fascinating reading for film studies students and anyone interested in cinema s portrayal of modern warfare American Grand Strategy under Obama

Georg Loffmann,2017-07-03 Introduction Reimagining grand strategy Filming hegemony Hollywood and the Manichean script of geopolitics Competing visions for America popular discourses of grand strategy on The New York Times best sellers list The American grand strategy debate in international relations Think tanks and the Washington consensus on hegemony Strategic vision national security defense policy and the geopolitics of military pre eminence The Obama doctrine vision for change Conclusion Transnational Film and the US Wars in Iraq & Afghanistan Marzena Sokołowska-Paryż,Marek

Paryż,2025-01-15 This book offers insights into diverse non American national perspectives on the US led military interventions in Afghanistan and Iraq within the generic frames of the war film While the best known films about the post 9 11 wars in the Middle East are American productions various other national cinematographies have responded to these conflicts which is not surprising given the fact that international coalitions were formed to support the US military effort However non American war films about these US instigated interventions have received little attention outside their own national contexts This volume fills in the gap in the existing war film criticism by offering insights into how the Afghanistan War 2001 2021 and the Iraq War 2003 2011 have been represented in popular and documentary filmic productions in Iraq Afghanistan Great Britain Germany Denmark Poland Spain and Australia The contributions prove the need for transnationalism as an eye opening perspective on the war film genre by underscoring nationally specific social political and aesthetic differences alongside important correspondences between cultural productions across nations Transnational film and the US wars in Iraq and Afghanistan will be a key resource for scholars and researchers of film studies media and cultural studies film history war studies literary criticism and sociology It was originally published as a special issue of Journal of War Culture Studies **Through the Crosshairs** Roger Stahl,2018-06-21 Now that it has become so

commonplace we rarely blink an eye at camera footage framed by the crosshairs of a sniper s gun or from the perspective of a descending smart bomb But how did this weaponized gaze become the norm for depicting war and how has it influenced

public perceptions Through the Crosshairs traces the genealogy of this weapon's eye view across a wide range of genres including news reports military public relations images action movies video games and social media posts As he tracks how gun camera footage has spilled from the battlefield onto the screens of everyday civilian life Roger Stahl exposes how this raw video is carefully curated and edited to promote identification with military weaponry rather than with the targeted victims He reveals how the weaponized gaze is not only a powerful propagandistic frame but also a prime site of struggle over the representation of state violence
