Americans In Paris Foundations Of Americas Architectural Gilded Age:

Americans in Paris Jean Paul Carlhian, Margot M. Ellis, 2014 This book presents for the first time a comprehensive overview of the seminal early work of a century of American architects including Richard Morris Hunt H H Richardson Raymond Hood and Charles Follen McKim who studied at the prestigious and influential cole des Beaux Arts Paris before going on to design and build many of this nation s most important buildings and monuments Cover page 4 William C. Brocklesby: A Connecticut Valley Architect in the Gilded Age Bill Ranauro, 2023-07-07 The late nineteenth century known commonly as the Gilded Age produced some of the most beautiful yet controversial architecture in America s history The great influencers of the period including Richard Upjohn Henry Hobson Richardson and Charles McKim each spread the gospel of his own architectural style The result was an eclectic mix of styles that some detested but that others embraced Caught in the struggle to find an architecture America could claim as its own Hartford Connecticut architect William Brocklesby carved out his own stylistic path In an age when the taste for ostentation and pretension was adopted by many William Brocklesby produced some of the most dignified and beautiful architecture in the Connecticut Valley His churches libraries and theaters remain as artistic landmarks throughout western New England and his work at colleges from Hartford to Amherst Massachusetts make for some of the most picturesque college campuses in America This book serves as a companion to the author s earlier book Asher Benjamin American Architect Author Artist Taken together the two books provide a view of developments in American architecture from 1790 to 1910 The Architecture of William C Brocklesby Hailing from Hartford Connecticut architect William C Brocklesby 1847 1910 spent his career designing beautiful yet dignified churches libraries and public buildings throughout the Connecticut River Valley and western New England Working in an age when ostentation was the rule rather than the exception Brocklesby maintained a restrained hand in the application of ornament His design of Forbes Library in Northampton Massachusetts stands out as a monument to his ability as a design architect In addition William Brocklesby was among a handful of nineteenth century architects who made the Connecticut River Valley the birthplace of the prototypical American college campus Working largely within the vision of the famed American landscape architects Andrew Jackson Downing and Frederick Law Olmstead Brocklesby and others built campuses that were meant to mimic the traditional New England village Through the designs of the college buildings by Peabody and Stearns and William Brocklesby Smith College s architectural history traces the development of late nineteenth century styles National Register of Historic Places Inventory **American Colonisation and the City Beautiful** Ian Morley, 2019-10-30 Winner of the 2020 IPHS Koos Bosma Prize American Colonisation and the City Beautiful explores the history of city planning and the evolution of the built environment in the Philippines between 1916 and 1935 In so doing it highlights the activities of the Bureau of Public Works Division of Architecture as part of Philippine national development and decolonisation Morley provides new archival materials which deliver significant insight into the dynamics associated with

both governance and city planning during the American colonial era in the Philippines with links between prominent American university educators and Filipino architecture students The book discusses the two cities of Tayabas and Iloilo which highlight the significant role in the urban design of places beyond the typical historiographical focus of Manila and Baguio These examples will aid in further understanding the appearance and meaning of Philippine cities during an important era in the nation's history Including numerous black and white images this book is essential for academics researchers and students of city and urban planning the history and development of Southeast Asia and those interested in colonial relations

The Routledge Companion to Art Deco Bridget Elliott, Michael Windover, 2019-06-25 Scholarly interest in Art Deco has grown

rapidly over the past fifty years spanning different academic disciplines This volume provides a guide to the current state of the field of Art Deco research by highlighting past accomplishments and promising new directions Chapters are presented in five sections based on key concepts migration public culture fashion politics and Art Deco s afterlife in heritage restoration and new media The book provides a range of perspectives on and approaches to these issues as well as to the concept of Art Deco itself It highlights the slipperiness of Art Deco yet points to its potential to shed new light on the complexities of modernity

Railway Palaces of Portland, Oregon: The Architectural Legacy of Henry Villard Alexander Benjamin Craghead, 2016 In 1883 railroad financier Henry Villard brought Portland and the Pacific Northwest their first transcontinental railroad Earning a reputation for boldness on Wall Street the war correspondent turned entrepreneur set out to establish Portland as a burgeoning metropolis To realize his vision he hired architects McKim Mead White to design a massive passenger station and a first class hotel Despite financial panics lost fortunes and stalled construction the Portland Hotel opened in 1890 and remained the social heart of the city for sixty years While the original station was never built Villard returned as a pivotal benefactor of Union Station saving its iconic clock tower in the process Author Alexander Benjamin Craghead tells the story of this Gilded Age patron and the architecture that helped shape the city s identity

Histories of Architecture Education in the United States Peter L. Laurence, 2023-10-31 Histories of Architecture Education in the United States is an edited collection focused on the professional evolution experimental and enduring pedagogical approaches and leading institutions of American architecture education Beginning with the emergence of architecture as a profession in Philadelphia and ending with the early work but unfinished international effort of making room for women and people of color in positions of leadership in the field this collection offers an important history of architecture education relevant to audiences both within and outside of the United States Other themes include the relationship of professional organizations to educational institutions the legacy of late nineteenth century design concepts the role of architectural history educational changes and trans Atlantic intellectual exchanges after WWII and the Cold War the rise of the city and urban design in the architect s consciousness student protests and challenges to traditional architecture education and the controversial appearance of environmental activism This collection in other words provides a relevant history of the present with topics of concern to all architects studying and working today

Classical New York Elizabeth Macaulay-Lewis, Matthew McGowan, 2021-05-20 Essays on the historical Greco Roman influence on the evolving architectural landscape of New York City During its rise from capital of an upstart nation to global metropolis the visual language of Greek and Roman antiquity played a formative role in the development of New York s art and architecture This compilation of essays offers a survey of diverse reinterpretations of classical forms in some of the city s most iconic buildings public monuments and civic spaces Classical New York examines the influence of Greco Roman thought and design from the Greek Revival of the late eighteenth and early nineteenth centuries through the late nineteenth century American

Renaissance and Beaux Arts period and into the twentieth century's Art Deco. At every juncture New Yorkers looked to the classical past for knowledge and inspiration in seeking out new ways to cultivate a civic identity and to structure their public and private spaces. Specialists from a range of disciplines—archaeology, architectural history, art history, classics, and history—focus on how classical art and architecture are repurposed to help shape many of New York City's most evocative buildings and works of art. Federal Hall evoked the Parthenon as an architectural and democratic model; the Pantheon served as a model for the creation of libraries at New York University and Columbia University. Pennsylvania Station derived its form from the Baths of Caracalla, and Atlas and Prometheus of Rockefeller Center recast ancient myths in a new light during the Great Depression. This examination of post-Revolutionary art, politics, and philosophy enriches the conversation about how we shape space, be it civic, religious, academic, theatrical, or domestic, and how we make use of that space and the objects in it.

Italian Imprints on Twentieth-Century Architecture Denise Costanzo, Andrew Leach, 2022-05-19 Italian architecture has long exerted a special influence on the evolution of architectural ideas elsewhere, from the Beaux Arts academy's veneration of Rome to modernist and postmodern interest in Renaissance proportion, Baroque space, and Mannerist ambiguity. This book critically examines this enduring phenomenon, exploring the privileged position of Italian architects, architecture, and cities in the architectural culture of the past century. Questioning the deep-rooted myth of Italy within architectural history, the book presents case studies of Italy's powerful yet problematic position in 20th-century architectural ideologies at a time when established Eurocentric narratives are rightly being challenged. It reconciles the privileged position of Italian architecture and design with the imperative to write history across a more global, diverse, heterogeneous cultural geography. Twenty chapters from distinguished international scholars cover subjects and architects ranging from Alberti to Gio Ponti, Aldo Rossi, Manfredo Tafuri, Vittorio Gregotti, cities from Rome and Venice to Milan, and an array of international architects, movements, and architectural ideas influenced by Italy. The chapters each question where, how, and why the disciplinary edifice of 20th-century architecture, its canon of built, visual, textual, and conceptual works, relied on Italian foundations, examining where and how those foundations have become insecure. Indispensable for students and scholars of both Italian and global architectural history, *Italian Imprints on Twentieth-Century Architecture* provides an opportunity to consider the architectural and urban landscape of Italy from substantially new points of view.

Detailing Worlds Eric Bellin, 2025-02-06 In the 21st century, the word detail appears constantly in discussions of building, and we use it in many different ways. Yet just over 250 years ago, detail meant nothing at all, particular to the work of architects, engineers, or builders. *Detailing Worlds* is the first book to examine the origins and evolution of detail as a concept with meanings specific to practices of building. By exploring how past meanings and roles were ascribed to detail in different worlds of practice—those of academics, technicians, students, engineers, and architects—*Detailing Worlds* looks to the future, illuminating the ways disciplinary knowledge and the concepts on which it is based evolve and change over time. It is a story about how such concepts are slowly but constantly reconceived, redefined.

and transformed by individuals as they interact with one another and how this process is shaped by the ever changing sociocultural and technological dimensions of the world around us Richly illustrated with more than 200 images including figures from rare texts archival student drawings and practitioners construction documents from the 18th through 20th centuries Detailing Worlds ventures to tell the history of a disciplinary specific idea and offer insights about how we think and speak about the practice of building today
