Aboriginal Populations In The Mind Race And Primitivity In Psychoanalysis:

Aboriginal Populations in the Mind Celia Brickman, 2003 This work explores how the colonialist and racist discourse of late 19th century anthropology found its way into the work of Sigmund Freud influencing the model of racial difference implicit in his notions of subjectivity

Race in Psychoanalysis Celia Brickman, 2017-12-06 Race in Psychoanalysis analyzes the often unrecognized racism in psychoanalysis by examining how the colonialist discourse of late nineteenth century anthropology made its way into Freud's foundational texts where it has remained and continues to exert a hidden influence Recent racial violence particularly in the US has made many realize that academic and professional disciplines as well as social and political institutions need to be re-examined for the racial biases they may contain Psychoanalysis is no exception When Freud applied his insights to the history of the psyche and of civilization he made liberal use of the anthropology of his time which was steeped in colonial racist thought Although it has often been assumed that this usage was confined to his non-clinical works this book argues that through the pivotal concept of primitivity it fed back into his theories of the psyche and of clinical technique as well Celia Brickman examines how the discourse concerning the presumed primitivity of colonized and enslaved peoples contributed to psychoanalytic understandings of self and raced other She shows how psychoanalytic constructions of race and gender are related and how Freud's attitudes towards primitivity were related to the anti-Semitism of his time All of this is demonstrated to be part of the modernist aim of psychoanalysis which seeks to create a modern subjectivity through a renegotiation of the past Finally the book shows how all of this can affect both clinician and patient within the contemporary clinical encounter Race in Psychoanalysis is a pivotal work of significance for scholars practitioners and students of psychoanalysis psychologists clinical social workers and other clinicians whose work is informed by psychoanalytic insights as well as those engaged in critical race and postcolonial studies

Psychiatry and Racial Liberalism in Harlem, 1936-1968 Dennis A. Doyle, 2016 Reveals the history of the individuals who worked to make psychiatry more available to Harlem's black community in the early Civil Rights Era Toward the middle of the twentieth century African Americans in New York City began to receive increased access to mental health care in some facilities within the city's mental health system This study documents how and why this important change in public health and in public opinion on race occurred Drawing on records from New York's children's courts Harlem's public schools Columbia University and the Department of Hospitals Dennis Doyle tells here the story of the American psychiatrists and civil servants who helped codify in New York's mental health policies the view that blacks and whites are psychological equals The book examines in particular the events through which these racial liberals working in Harlem gained a foothold within New York's public institutions creating inclusive public policies and ostensibly race neutral standards of care Psychiatry and Racial Liberalism in Harlem 1936-1968 not only contributes to the growing body of historiography on race and medical institutions in the civil rights era but more importantly shows how inveterate racial prejudices within public policy can be overcome

Dennis A Doyle is assistant professor of history at the Saint Louis College of Pharmacy

A People's History of

Psychoanalysis Daniel José Gaztambide, 2019-12-09 As inequality widens in all sectors of contemporary society we must ask is psychoanalysis too white and well to do to be relevant to social economic and racial justice struggles Are its ideas and practices too alien for people of color Can it help us understand why systems of oppression are so stable and how oppression becomes internalized In *A People's History of Psychoanalysis From Freud to Liberation Psychology* Daniel Jos Gaztambide reviews the oft forgotten history of social justice in psychoanalysis Starting with the work of Sigmund Freud and the first generation of left leaning psychoanalysts Gaztambide traces a series of interrelated psychoanalytic ideas and social justice movements that culminated in the work of Frantz Fanon Paulo Freire and Ignacio Mart n Bar Through this intellectual genealogy Gaztambide presents a psychoanalytically informed theory of race class and internalized oppression that resulted from the intertwined efforts of psychoanalysts and racial justice advocates over the course of generations and gave rise to liberation psychology This book is recommended for students and scholars engaged in political activism critical pedagogy and clinical work

The Politics of the Dreamscape Seth Rogoff, 2021-08-25 This book traces the intersection of dreams and power in order to analyze the complex ways representations of dreams and paradigms of dream interpretation reinforce and challenge authoritarian hierarchical structures The book puts forward the concept of the dreamscape as a pre representational space that contains anarchistic attributes including its instability or chaotic nature and the lack of a stable or core selfhood and identity in its subjects The book situates this concept of the dreamscape through an analysis of the Daoist notions of the transformation of things and hundun chaos and the biblical concept of tehom the deep Using this conceptual framework this book analyzes paradigmatic moments of dream interpretation along a spectrum from radical anarchist assertions of the primal dreamscape to authoritarian dream texts that seek to reify identity define and establish hierarchy and support coercive relationships between unequal subjects The book's key figures include William Blake Robert Frost Jacob and Joseph from Genesis Sigmund Freud Carl Jung Jean Rhys Franz Kafka and the neurobiologist J Allan Hobson

Intoxication, Modernity, and Colonialism Dušan I. Bjelić, 2017-01-25 This book depicts how Freud's cocaine and Benjamin's hashish illustrate two critiques of modernity and two messianic emancipations through the pleasures of intoxicating discourse Freud discovered the libido and unconscious in the industrial mimetic scheme of cocaine whereas Benjamin found an inspiration for his critique of phantasmagoria and its variant psychoanalysis in hashish's mimesis In addition as part of the history of colonialism both drugs generated two distinct colonial discourses and consequently two different understandings of the emancipatory powers of pleasure the unconscious and dreams After all great ideas don't liberate they intoxicate

Whiteness Fractured Cynthia Levine-Rasky, 2016-02-11 *Whiteness Fractured* examines the many ways in which whiteness is conceptualized today and how it is understood to operate and to effect social relationships Exploring the intersections between whiteness social class ethnicity and psychosocial phenomena this book is framed by the question of

how whiteness works and what it does With attention to central concepts and the history of whiteness it explains the four ways in which whiteness works In its examination of the outward and inward fractures of whiteness the book sheds light on both its connections with social class and ethnicity and with the epistemology of ignorance and the psychoanalytic Representing the long career of whiteness on the one hand and investigating its expansion into new areas on the other Whiteness Fractured reflects the growing maturity of critical whiteness studies It undertakes a critical analysis of approaches to whiteness and proposes new directions for future action and enquiry As such it will appeal to scholars across the social sciences with interests in race and ethnicity intersectionality colonialism and post colonialism and cultural studies

Reflecting Critically on the Political Psyche Andrew Samuels, 2025-03-31 With passion and originality within this new book Samuels presents powerful material on culture and politics including a critical take on political violence and a compassionate account of the role of an individual when it comes to progressive politics Initial chapters include his commentary on Edward Albee's shocking play *The Goat* and a provocative and critical view on liberal idealisation of the Other Then there is more of Samuels' celebrated work bringing therapy thinking to bear on politics and as far as the practice and organisation of therapy is concerned readers will find new work on how to organise a good training you must use pluralism and a robust account of what a critical psychotherapy might look like A section on Jungian matters includes Samuels' work on Jung and Africans whose importance has long been recognised and a scintillating balance sheet for Jungian analysis setting its strengths and weaknesses alongside each other In a clinical section Samuels shows us what he means by the dynamic idea of the activist client With each chapter being preceded by a special retrospective introduction as well as including experiential exercises to ground the ideas this unique collection of papers will be of interest to psychotherapists Jungian analysts psychoanalysts and counsellors as well as academics working in those fields

Illusions of a Future Kate Schechter, 2014-08-20 A pioneering ethnography of psychoanalysis *Illusions of a Future* explores the political economy of private therapeutic labor within industrialized medicine Focusing on psychoanalysis in Chicago a historically important location in the development and institutionalization of psychoanalysis in the United States Kate Schechter examines the nexus of theory practice and institutional form in the original instituting of psychoanalysis its normalization and now its crisis She describes how contemporary analysts struggle to maintain conceptions of themselves as capable of deciding what psychoanalysis is and how to regulate it in order to prevail over market demands for the efficiency and standardization of mental health treatments In the process Schechter shows how deeply imbricated the analyst patient relationship is in this effort Since the mid twentieth century the real relationship between analyst and patient is no longer the unremarked background of analysis but its very site Psychoanalysts seek to validate the centrality of this relationship with theory and through codified standards to claim it as a privileged technique It has become the means by which psychoanalysts in seeking to protect their disciplinary autonomy have unwittingly bound themselves to a neoliberal discourse of regulation

Taboo,

Personal and Collective Representations Elizabeth Brodersen, 2019-03-04 Taboo Personal and Collective Representations examines the symbolic nature of taboo asking what is the purpose of a taboo and how does it vary cross culturally The book focuses on the concept of taboo as an in between organizing principle which separates and differentiates stages through a ritual process of separation of order as clean blessed from disorder as polluted disassociated This book uses an interdisciplinary approach which compares the anthropological ethnological sociological and depth psychological perspectives of renowned scholars in their examination of taboos Unconscious conscious taboos influence how we perceive transitional indeterminate states across margins in the maturation and individuation processes The book argues that a taboo embodies the perilous symbolic meaning of such a rite of passage and that its emotional value and intensity in the form of symptomology varies across cultures Taboo Personal and Collective Representations will be of great interest to researchers academics and post graduate students in the fields of anthropology ethnology origins of religion race gender and depth psychology
