Generative Fathering Alan J. Hawkins, David C. Dollahite, 1997 Much contemporary scholarship on fathers comes from a deficit model focusing on men s inadequacies as parents This volume goes beyond a deficit model of fatherhood to what the editors term a generative fathering perspective This approach sees the work fathers do for their children in terms of caring for and contributing to the life of the next generation Following a description of generative fathering placing it in contrast to the role inadequacy perspective of fatherhood the contributors elaborate on generative fathering in terms of gender ethnicity and historical perspectives They present research that helps readers to understand generative fathering in challenging life circumstances such as special needs child

Contemporary Hollywood Masculinities Susanne Kord,Elisabeth Krimmer,2013-12-04 Kord and Krimmer investigate the most common male types cops killers fathers cowboys superheroes spies soldiers rogues lovers and losers by tracing changing concepts of masculinity in popular Hollywood blockbusters from 1992 to 2008 the Clinton and Bush eras against a backdrop of contemporary political events social developments and popular American myths Their in depth analysis of over sixty films from *The Matrix* and *Iron Man* to *Pirates of the Caribbean* and *The Lord of the Rings* shows that movies far from being mere entertainment respond directly to today's social and political realities from consumerism to family values to the War on Terror **Raising Emotionally Healthy Boys** Michael Reist,2015-07-25 Raising emotionally healthy children is not just about what we need to do but what we need to avoid doing We all know that repressing our feelings can be damaging and that emotional repression is an especially prevalent issue among males From a very young age boys are socialized to hide their emotions Girls on the other hand are encouraged to learn a much broader range of emotional expression The long term repercussions of this imbalance are profound Many of the problems we face both as a society and as a species are directly affected by how we raise our boys We are all products of nature and nurture combined The conscious and unconscious lessons we give our children often enhance and improve their human natures but can sometimes degrade them too As we come to the end of thousands of years of patriarchy we are being challenged to redefine masculinity Our boys are

lucky to be living in such a time and luckier when they have adults in their lives who are aware of how their minds function and what they need If we want to raise men who are strong confident and whole in the best sense of these words then parents around the world urgently need a conversation about what we teach and don't teach our boys **Radical Reform**

Tariq Ramadan, 2009-02-05 In this new book Tariq Ramadan argues that it is crucial to find theoretical and practical solutions that will enable Western Muslims to remain faithful to Islamic ethics while fully living within their societies and their time He notes that Muslim scholars often refer to the notion of *ijtihad* critical and renewed reading of the foundational texts as the only way for Muslims to take up these modern challenges But Ramadan argues in practice such readings have effectively reached the limits of their ability to serve the faithful in the West as well as the East In this book he sets forward a radical new concept of *ijtihad* which puts context including the knowledge derived from the hard and human sciences cultures and their geographic and historical contingencies on an equal footing with the scriptures as a source of Islamic law *Absent Fathers?* Jonathan Bradshaw, Christine Skinner, Carol Stimson, Julie Williams, 2002-03-11 Much has been written and debated on lone mothers However little has been discussed about non resident fathers *Absent Fathers* is part of a growing literature on men and masculinities and takes this debate further Drawn from one of the best social policy units in the UK and results from the current ESRC Programme on Population and Household Change it will provide a text for undergraduates in social policy and should also be important for professionals concerned with family breakdown and child support **The American Father Onscreen** Toby Reynolds, 2021-12-21 The American father is constantly depicted by contemporary Hollywood as being under pressure and forever struggling but why By utilising an analytical psychological approach this fascinating book reveals the depths complexities and nuances of the depictions of the American father and his struggles with contemporary contextual challenges and offers a fresh and intellectually exciting set of perspectives and interpretations of this key masculine figure and his effect on cinematic masculinities Using a post Jungian methodology and close textual analysis the book seeks to explore the presence and impact of the American filmic father and the effect his Shadow has on himself his children and US society It does this by examining the concept of father hunger a term popularised by the mythopoetic men's movement that holds fathers to be an essential link to the masculine continuum and masculinity in general Analysing the role that Hollywood plays in depicting fathers and their relationships with their children and American society *The American Father Onscreen* concludes that Hollywood presents the American paternal as crucial to the construction of US society and consequently American cultural myths such as the American Dream Providing an alternative perspective into the fascinating complex and under researched figure of the American father this book will be of great interest to academics and students of film gender studies American studies and post Jungian psychology
