Sea Change at Annapolis H. Michael Gelfand, 2009-09-15 Since 1845 the United States Naval Academy has prepared professional military leaders at its Annapolis Maryland campus Although it remains steeped in a culture of tradition and discipline the Academy is not impervious to change Dispelling the myth that the Academy is a bastion of tradition unmarked by progress H Michael Gelfand examines challenges to the Naval Academy s culture from both inside and outside the Academy s walls between 1949 and 2000 an era of dramatic social change in American history Drawing on more than two hundred oral histories extensive archival research and his own participatory observation at the Academy Gelfand demonstrates that events at Annapolis reflect the transformation of American culture and society at large in the Cold War and post Cold War periods In eight

chapters he discusses recruiting and minority midshipmen the end of mandatory attendance at religious services women s experiences as they sought and achieved admission and later served as midshipmen and the responses of multiple generations of midshipmen to societal changes particularly during the Vietnam War era This cultural history not only sheds light on events at the Naval Academy but also offers a novel perspective on democratic ideals in the United States

Teaching Medical Professionalism Richard L. Cruess, Sylvia R. Cruess, Yvonne Steinert, 2016-03-29 This book presents ideas and guidance about human development to enhance medical education s ability to form competent and responsible physicians

Military Forces in 21st Century Peace Operations James V. Arbuckle, 2006-09-27 As the antithetical relationships between the civilian and military agencies and components of modern peace operations are essentially cultural and are rooted in misinformation and prejudice effective civil military operations are needed from the outset of an operation

Masculinity in Vietnam War Narratives Brenda M. Boyle, 2014-01-10 Occurring alongside the Women s Rights Gay Rights Civil Rights and other identity movements of the 1960s the Vietnam War was part of an era that rescripted gender and other social identity roles for many if not most Americans This book examines the ways in which the war and its accompanying movements greatly altered traditional American conceptions of masculinity as reflected in discourses ranging from fictional narratives to memoirs films and military recruiting advertisements Analysis of two canonical fiction texts John Del Vecchio s *The 13th Valley* and Bobbie Ann Mason s *In Country* illustrates the interrelatedness of race sexuality disability and masculinity an approach appearing in no other book length study The text illustrates how decades later the masculine anxieties of the Vietnam era persist

Marching in Step Alexander Macaulay, 2011-03-01 Combining the nuanced perspective of an insider with the critical distance of a historian Alexander Macaulay examines The Citadel s reactions to major shifts in postwar life from the rise of the counterculture to the demise of the Cold War The Citadel is widely considered one of the most traditional institutions in America and a bastion of southern conservatism In *Marching in Step* Macaulay argues that The Citadel has actually experienced many changes since World War II changes that often tell us as much about the United States as about the American South Macaulay explores how The Citadel was often an undiluted showcase for national debates over who deserved full recognition as a citizen most famously first for black men and later for women As the boundaries regarding race gender and citizenship were drawn and redrawn Macaulay says attitudes at The Citadel reflected rather than stood apart from those of mainstream America In this study of an iconic American institution Macaulay also raises questions over issues of southern distinctiveness and sheds light on the South s real and imagined relationship with the rest of America
