Academy Quantitative Global Fund:

Greening the Academy Samuel Fassbinder, Anthony Nocella, Richard Kahn, 2012-12-30 This is the academic Age of the Neoliberal Arts Campuses as places characterized by democratic debate and controversy wide ranges of opinion typical of vibrant public spheres and service to the larger society are everywhere being creatively destroyed in order to accord with market and military models befitting the academic industrial complex While it has become increasingly clear that facilitating the sustainability movement is the great 21st century educational challenge at hand this book asserts that it is both a dangerous and criminal development today that sustainability in higher education has come to be defined by the complex friendly green campus initiatives of science technology engineering and management programs By contrast Greening the Academy Ecopedagogy Through the Liberal Arts takes the standpoints of those working for environmental and ecological justice in order to critique the unsustainable disciplinary limitations within the humanities and social sciences as well as provide tactical reconstructive openings toward an empowered liberal arts for sustainability Greening the Academy thus hopes to speak back with a collective demand that sustainability education be defined as a critical and moral vocation comprised of the diverse types of humanistic study that will benefit the well being of our emerging planetary community and its numerous common locales

The Autocratic Academy Timothy V. Kaufman-Osborn, 2023-03-06 Critics of contemporary US higher education often point to the academy s corporatization as one of its defining maladies However in The Autocratic Academy Timothy V Kaufman Osborn argues that American colleges

and universities have always been organized as corporations in which the power to rule is legally vested in and monopolized by antidemocratic governing boards This institutional form Kaufman Osborn contends is antithetical to the free inquiry that defines the purpose of higher education Tracing the history of the American academy from the founding of Harvard 1636 through the Supreme Court's Dartmouth v Woodward ruling 1819 and into the twenty first century Kaufman Osborn shows how the university's autocratic legal constitution is now yoked to its representation on the model of private property Explaining why appeals to the cause of shared governance cannot succeed in wresting power from the academy's autocrats Kaufman Osborn argues that American universities must now be reincorporated in accordance with the principles of democratic republicanism Only then can the academy's members hold accountable those chosen to govern and collectively determine the disposition of higher education's unique public goods

Accomplishments of the U.S. Global Change Research Program National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Division on Earth and Life Studies, Board on Environmental Change and Society, Board on Atmospheric Sciences and Climate, Committee to Advise the U.S. Global Change Research Program, 2017-02-13 The U S Global Change Research Program USGCRP is an interagency program established by the Global Change Research Act GCRA of 1990 mandated by Congress to assist the Nation and the world to understand assess predict and respond to human induced and natural processes of global change Since the USGCRP began scientific understanding of global change has increased and the information needs of the nation have changed dramatically A better understanding of what is changing and why can help decision makers in the public and private sectors cope with ongoing change Accomplishments of the U S Global Change Research Program highlights the growth of global change science in the quarter century that the USGCRP has been in existence and documents some of its contributions to that growth through its primary functions of interagency planning and coordination and of synthesis of research and practice to inform decision making

MacNeil, 2023-06-01 This Research Handbook is a one stop resource on global capital markets and the laws that regulate them Featuring contributions from leading global experts the Research Handbook delves into a range of issues including investment products such as equity finance sustainable finance fintech impact investing and private equity It also provides analysis on institutional and procedural issues such as large and small companies capital formation the roles of institutional shareholders and information providers and the practices and regulation of financial trading markets

Global Environmental Risk Jeanne X. Kasperson, Roger E. Kasperson, 2013-05-13 Despite international initiatives such as the Earth Summit in 1992 and ongoing efforts to implement the Kyoto Protocol human activities continue to register a destructive toll on the planetary environment At root research on global environmental risk seeks new pathways for reversing unsustainable trends curtailing ongoing destructive activities and creating a life sustaining planet This book takes stock of the distinctive challenges posed by global environmental risks the

capacity of knowledge systems to identify and characterize such risks and the competence of human society to manage the unprecedented complexity Particular attention trains on engaging in ways conducive to enhancing social learning and adaptation the large uncertainties inherent in these risks Various chapters enlist different scales of analysis to explore the manifestation and causes of global environmental risks in all the diversity of their regional expression Throughout the editors and contributors accord prominence to the vulnerability of people and places to environmental degradation Understanding vulnerability is a neglected key to assessing the nature of the risks and determining strategies for altering trajectories of threat Global risk futures the editors argue are not intractable and are still amenable to a risk analysis enterprise that is democratic in principle humanistic in concept and geared to the realities that pertain to the particular societies locales and regions that will ultimately bear the risk

The Good-Enough Life Avram Alpert,2023-09-19 How an acceptance of our limitations can lead to a more fulfilling life and a more harmonious society We live in a world oriented toward greatness one in which we feel compelled to be among the wealthiest most powerful and most famous This book explains why no one truly benefits from this competitive social order and reveals how another way of life is possible a good enough life for all Avram Alpert shows how our obsession with greatness results in stress and anxiety damage to our relationships widespread political and economic inequality and destruction of the natural world He describes how to move beyond greatness to create a society in which everyone flourishes By competing less with each other each of us can find renewed meaning and purpose have our material and emotional needs met and begin to lead more leisurely lives Alpert makes no false utopian promises however Life can never be more than good enough because there will always be accidents and tragedies beyond our control which is why we must stop dividing the world into winners and losers and ensure that there is a fair share of decency and sufficiency to go around Visionary and provocative The Good Enough Life demonstrates how we can work together to cultivate a good enough life for all instead of tearing ourselves apart in a race to the top of the social pyramid

Review of the U.S. Global Change Research Program's Update to the Strategic Plan Document National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Board on Environmental Change and Society,Division on Earth and Life Studies,Board on Atmospheric Sciences and Climate,Committee to Advise the U.S. Global Change Research Program,2016-05-24 The Update to the Strategic Plan USP is a supplement to the Ten Year Strategic Plan of the U S Global Change Research Program USGCRP completed in 2012 The Strategic Plan sets out a research program guiding thirteen federal agencies in accord with the Global Change Research Act of 1990 This report reviews whether USGCRP s efforts to achieve its goals and objectives as documented in the USP are adequate and responsive to the Nation s needs whether the priorities for continued or increased emphasis are appropriate and if the written document communicates effectively all within a context of the history and trajectory of the Program
