Aviation Security Ruwantissa I.R. Abeyratne, 2018-12-13 Published in 1998 The various conventions which apply to the subject of unlawful interference with civil aviation have proved effective only to the extent of nurturing existing values of international law as they are restrictively perceived through the parameters of air law This book examines the offence of unlawful interference with international civil aviation and analyses critically the legal and regulatory regime that applies thereto with a view to recommending measures that are calculated to infuse a new approach to the problem Emphasis is laid throughout the work on action which may be taken to alleviate the problem of unlawful interference Its conclusion incorporates various steps that can be taken towards achieving this objective The author focuses on the core of the problem which has effectively precluded significant progress into inroads that would curb the threat terrorism in aviation the attitude of the international community The book therefore examines in limine the fundamental role of international law in the light of the United Nations Congress of International Public Law of March 1995 and its effect on international criminal law It then determines the applicable principles of State sovereignty and examines the principles of State responsibility Its main purpose is to recommend the establishment of a new philosophy of international criminal law which transcends municipal boundaries Academic scholarly and judicial precedent for this book is the adduced in support of this argument The book also examines the role of International Civil Aviation Organization ICAO as the regulatory body responsible for civil aviation in the context of new approaches made by the international community towards the status of ICAO in aviation security The practical value of this work essentially lies in the legal recommendations it makes at its conclusion which are based on existing principles of international law It will thus be invaluable not only to international and aviation lawyers criminal lawyers both international and national security professionals and teachers and students of international law but also to aviation industry executives and regulatory agency specialists whose responsibilities impinge on or are determined by existing and evolving legal and security measures
