Axiom Manual:

Pilot Competency and Capability Steven Green, 2023-04-06 Pilot Competency and Capability presents strategies for the air carrier pilot in command operating complex engineered systems within a complex natural environment. It bridges the gap between academic books and practical application by providing real world examples of how various safety and operational theories work in practice. The book advises on how to develop concepts, strategies and ways of thinking that integrate with existing structures and FAA regulations while understanding how engineered systems and codified structures interface with complex natural environments. It considers how the prescribed safety margins function to manage emergent behaviors of both the natural environment and the engineered systems. The book is intended for airline pilots, training captains, simulator instructors and aviation students taking courses in aviation safety, risk management and flight safety to improve in flight decision making, risk analysis and strategic planning. *Information Processing and Management of Uncertainty in Knowledge-Based Systems* Davide Ciucci, Inés Couso, Jesús Medina, Dominik Ślęzak, Davide Petturiti, Bernadette Bouchon-Meunier, Ronald R. Yager, 2022-07-04 This two volume set CCIS 1601 1602 constitutes the proceedings of the 19th International Conference on Information Processing and Management of Uncertainty in Knowledge Based Systems IPMU 2021 held in Milan, Italy, in July 2022. The 124 papers were carefully reviewed and selected from 188 submissions. The papers are organized in topical sections as follows: aggregation theory; beyond the unit interval; formal concept analysis and uncertainty; fuzzy implication functions; fuzzy mathematical analysis and its applications; generalized sets and operators; information fusion techniques based on aggregation functions; pre aggregation functions and their generalizations; interval uncertainty; knowledge acquisition; representation and reasoning; logical structures of opposition and logical syllogisms; mathematical fuzzy logics; theoretical and applied aspects of imprecise probabilities; data science and machine learning; decision making; modeling and applications; e health; fuzzy methods in data mining and knowledge discovery; soft computing and artificial intelligence techniques in image processing; soft methods in statistics and data analysis; uncertainty; heterogeneity; reliability and explainability in AI; weak and cautious supervised learning. *Typeset in the Future* Dave Addey, 2018-12-11 A designer's deep dive into seven science fiction films filled with gloriously esoteric nerdery and observations as witty as they are keen. Wired In Typeset in the Future blogger and designer Dave Addey invites sci fi movie fans on a journey through seven genre defining classics, discovering how they create compelling visions of the future through typography and design. The book delves deep into 2001 A Space Odyssey, Star Trek: The Motion Picture, Alien, Blade Runner, Total Recall, WALL-E and Moon, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens and ephemera, plus original interviews with Mike Okuda, Star Trek; Paul Verhoeven, Total Recall; and Ralph Eggleston and Craig Foster, Pixar. Typeset in the Future is an obsessively geeky study of how classic sci fi movies draw us in to their imagined worlds. *The Only Secret*
