Axis Of Time:

Final Impact John Birmingham, 2007-03-20 The action is nonstop the characters very real and very different from each other and to coin a phrase it makes you think S M Stirling author of Island in the Sea of Time In the year 2021 a multinational fleet experimenting with untested weapons technology pitched through time crash landing in 1942 The world is thrown into chaos as Roosevelt Hitler Churchill Tojo and Stalin scramble to adapt to new high tech killing tools and twenty first century ways of war For uptimers like Britain s Prince Harry and the men and women who serve aboard the supercarrier USS Hillary Clinton war is a constant struggle with their own downtime allies who are mired in ignorance and bigotry As the Allies counter the Nazi assault and set off for the coast of France Japan begins to buckle soon every battle will be played out in a lethal dance of might and intelligence unholy alliances and desperate gambles and each clash will be fought with the ultimate weapon knowledge from the future Thanks to the historical records all sides know that two superpowers will emerge while the losers will be pounded into submission But time has shifted on its axis so none know who will survive or how peace will take hold in a world turned upside down These are the questions that John Birmingham brilliantly answers in his critically acclaimed adventure of war and imagination

Decoding Spacetime Eric Carlson, 2010-11-08 This is a book about science religion and being yours and mine The study of being is called Ontology Our culture is dominated by a naturalist ontology The question is does ontology include a supernatural component Or is that idea a relic of our primeval past sort of like appendix and adenoids parts that can be excised from the body of our belief system The author argues for the primacy of the transcendent supernatural ontology by means of two books the book of nature and the book of transcendency the Bible each containing its own portion of the evidence Mr Carlson argues for the following The universe represents a small portion of Gods ontology a small reality devoted to redemption The signet of redemption is the number 7 its appearance within chronology is deliberate instructive and compelling The Creation Week account reflects a two fold metaphor 1 space time itself was created to support the redemptive act and 2 mankinds history will unfold in a series of seven ages later quantified as millennia The interval between Adam and Abraham literally filled one redemptive bi millennium but the catastrophic effects of 3 realities the Cainite civilization Noah and the break up of Pangaea contribute to the appearance of myth as viewed by the uniformitarian geologist for whom catastrophes appear invisible The 2nd bi millennium Abraham to Messiah was also fulfilled exactly in redemptive time The termination of our age is imminent and dependent upon the chronology of Israel mankinds chronograph A detailed chronology of the history of Israel is flavored with the redemptive signet especially 70 yrs or 70 heptads of yrs By decoding Israels history in redemptive time and employing the single concept of the favor of God the author derives a Biblical based proof that modern Israel is the same and identical state founded by Samuel in 1096 BC Three independent proofs of this foundational date are provided These proofs show that the Monarchy existed for exactly 511 yrs which period is exactly equal to 73 heptads Israel is an heptadic state The author

concludes that the redemptive corollary to Israel's ontology is also proven we have actually entered the end times and the events associated with the last days will soon unfold Because the reality of Israel is visible to all it is apparent that the redemptive offer made to mankind is also real and visible such as that appearing in John 3 16 John 6 40 and Romans 10 9 13 There is much to learn about our world Start now Tomorrow may be too late **MATRIX OF THE UNIVERSE** AUDREY ELIZABETH RANGLES, 2021-04-04 The theory of Matrix series of books offers the exiting developments in cosmological theory Matrix of the Universe is the 6th book of the series In this book we discuss the structure of the Universe certain aspects of its evolution energy matter space and time We combine elements of psychology cosmology and astrophysics to discover secrets hidden deep in the Universe Can we picture to ourselves a three dimensional universe which is finite yet unbounded The usual answer to this question is No but that is not the right answer Albert Einstein Geometry and Experience 1922 Stay well and enjoy your reading Yours sincerely Audrey Elizabeth Randles DECEMBER 28 2020 **Energy of Existence** Audrey E. Randles, 2014-09-10 Matrix reveals intimate relations between Energy Information and Space Time New concepts such as Space Time and Mass Energy Transformations Info Energy and Space Time Conservation Laws and Reversibility Speed of Light special features and more **Weapons of Choice** John Birmingham, 2005-04-26 On the eve of America's greatest victory in the Pacific a catastrophic event disrupts the course of World War II forever changing the rules of combat The impossible has spawned the unthinkable A military experiment in the year 2021 has thrust an American led multinational armada back to 1942 right into the middle of the U S naval task force speeding toward Midway Atoll and what was to be the most spectacular U S triumph of the entire war Thousands died in the chaos but the ripples had only begun For these veterans of Pearl Harbor led by Admirals Nimitz Halsey and Spruance have never seen a helicopter or a satellite link or a nuclear weapon And they've never encountered an African American colonel or a British naval commander who was a woman and half Pakistani While they embrace the armada's awesome firepower they may find the twenty first century sailors themselves far from acceptable Initial jubilation at news the Allies would win the war is quickly doused by the chilling realization that the time travelers themselves by their very presence have rendered history null and void Celebration turns to dread when the possibility arises that other elements of the twenty first century task force may have also made the trip and might now be aiding Yamamoto and the Japanese What happens next is anybody's guess and everybody's nightmare
