Azcentral Comics:

Comics Lit Vol. 1 Tonya Todd, A.R. Farina, Alyson Shelton, Eric Lee, Kelly Gaines, Seth Singleton, AA McCartney, Heath Fodor, Anthony D. Holt, 2024-10-02 Comic books are high art. They and their graphic novel counterparts harken back to classic literature and artworks. Through a series of essays, the authors will illustrate that modern pop culture characters are direct descendants of classic works of literature and their visual depiction is inspired by the works of master artists. Join us as we peel back layers to discover gothic influences, representations of badass females, uses of the mask, and the new look of Rappaccini's Daughter, as well as discuss teaching comics in college. Black identity and power, mythological and religious ties, and many more correlations hidden within the pages of action-packed heroes and villains. The essayists in this collection are first and foremost comic book fans with extensive backgrounds in art, film, education, literature, and writing. Comics Lit Vol. 1 contains essays by Alyson Shelton, Eric Lee, Kelly Gaines, Seth Singleton, AA McCartney, Heath Fodor, A.R. Farina, Tonya Todd, and Anthony D. Holt Jr. Foreword by Bryan Edward Hill. Information Literacy for Today's Diverse Students Alex Berrio Matamoros, 2018-11-21 This book helps students from diverse backgrounds and with various learning styles to master the material they learn with these practical examples for librarians teaching higher education information literacy. Cultural influences in students' lives are often tied to aspects of their background, such as ethnicity, national origin, socioeconomic status, gender, and religion, which play a large role in determining how they learn. Learning styles additionally differ among students, making it difficult to know how to best support all students. This book introduces academic instruction librarians to a differentiated instruction (DI) approach that will help them to offer students a choice of how to engage with course content, assess their understanding of the material, and demonstrate mastery of the material to the instructor, allowing students to actively participate in their education. It explains various instructional techniques used in DI and provides detailed step-by-step examples for implementing educational technology tools supporting each technique. Accompanying the examples are tips for overcoming known challenges in implementation and best practices for successful adoption of the techniques. Readers will understand how to begin using the most popular types of educational technology tools for academic information literacy instruction. **Deeper Writing** Robin W.
