

The background is a vibrant yellow-orange color. It features a repeating pattern of small, stylized human figures in various poses, rendered in a darker shade of the background color. Two large, curved, abstract shapes resembling boomerangs or stylized 'C' shapes are positioned on the left and right sides. These shapes are decorated with bold, colorful patterns: red, blue, and white circles and bands. A thick, dark brown rope-like border frames the central text area.

Aboriginal Backgrounds For Powerpoint:

Indigenous Perspectives of North America Judit Nagy, Enikő Sepsi, Miklós Vassányi, 2014-08-20 The present volume brings to North American Native Studies with its rich tradition and accumulated expertise in the Central European region the new complexities and challenges of contemporary Native reality The umbrella theme Indigenous perspectives brings together researchers from a great variety of disciplines focusing on issues such as democracy and human rights international law multiculturalism peace and security economic and scientific development sustainability literature and arts and culture as well as religion The thirty five topical and thought provoking articles written in English French and Spanish offer a solid platform for further critical investigations and a useful tool for classroom discussions in a wide variety of academic fields Parole in Canada Sarah Turnbull, 2016-10-25 Just as Canada's population has changed in the past four decades so too has its prison population The increasing diversity among prisoners raises important questions about how we punish those who break the law Parole in Canada is the first book to explore how concerns about Aboriginality gender and the multicultural ideal of diversity have been interpreted and used to alter federal parole policy and practice Using the Parole of Board of Canada as a case study this book shows how certain facets of offender differences are selectively included for accommodation while fundamental institutional structures practices and power arrangements remain unchanged Sarah Turnbull argues that as the current approach fails to challenge outdated notions about gender race and aboriginality within the penal system instead of addressing concerns around diversity these measures end up contributing to further exclusion and discrimination within the system

Halliday and Chinese Linguistics: The Full Circle Zhuanglin Hu,2024-06-24 This book is a progressive exposition on Halliday s academic thought and its origins by the renowned linguist Hu Zhuanglin based on 30 years of research The first part Chinese Origin introduces readers to the author s gradual understanding that Halliday s academic thought mainly came from Chinese scholars such as Wang Li Luo Changpei and Gao Mingkai In 1980s Halliday and his students introduced the theory of Systemic Functional Linguistics into the foreign language and linguistics circles in China thus Halliday s academic thought returned to where it originated The second part A

Discussion of Theories mainly addresses the author's experience and further discussions after learning Halliday's theory. The theme of the third part is Discourse Analysis and focuses on the greatest difference between Systemic Functional Linguistics and traditional grammar: sentence grammar. Halliday emphasizes the study of discourse and sentences are only the embodiment of discourse at the next level. The fourth part, The Study of Chinese, applies Halliday's linguistic theory to the evolution of the research of the Chinese language in China, which can better explain the theme of return and is of great significance for Chinese scholars' understanding and application of Halliday's academic thought.
