Accommodating Diversity Ideas And Institutional Practices:

Accommodating Diversity Gurpreet Mahajan, 2011-10-27 This volume combines reflections on the theoretical and pragmatic implications of religious linguistic and ethnic diversity The essays offer insights into multicultural theory and analyse related policies adopted in India by the government and other institutions **Accommodating Cultural Diversity** Stephen Tierney, 2016-03-23 This volume explores recent developments in the theory and practice of accommodating cultural diversity within democratic constitutional orders The aim of the book is to provide a broad vision of the constitutional management of cultural diversity as seen through the prisms of different disciplines and experiences both theoretical and practical The contributions which come from Canada and Europe comprise a review of the evolving theory of cultural diversity followed by two main case studies a substantive study of the accommodation of indigenous peoples within different constitutional orders and secondly the importance of constitutional interpretation to the development of cultural diversity in complex pluralist democracies such as Australia Canada and the UK **Routledge Handbook on the Governance of Religious Diversity** Anna Triandafyllidou, Tina Magazzini, 2020-12-30 This book critically reviews state religion models and the ways in which different countries manage religious diversity illuminating different responses to the challenges encountered in accommodating both majorities and minorities The country cases encompass eight world regions and 23 countries offering a wealth of research material suitable to support comparative research Each case is analysed in depth looking at historical trends current practices policies legal norms and institutions By looking into state religion relations and governance of religious diversity in regions beyond Europe we gain insights into predominantly Muslim countries Egypt Morocco Tunisia Turkey Indonesia Malaysia countries with pronounced historical religious diversity India and Lebanon and into a predominantly migrant pluralist nation Australia These insights can provide a basis for re thinking European models and learning from experiences of governing religious diversity in other socio economic and geopolitical contexts Key analytical and comparative reflections inform the introduction and concluding chapters This volume offers a research and study companion to better understand the connection between state religion relations and the governance of religious diversity in order to inform both policy and research efforts in accommodating religious diversity Given its accessible language and further readings provided in each chapter the volume is ideally suited for undergraduate and graduate students It will also be a valuable resource for researchers working in the wider field of ethnic migration religion and citizenship studies *Boundaries and Borderlands* Alka Acharya, 2022-07-21 The Simla Convention of 1914 held between Great Britain China and Tibet demarcated the border between India and Tibet and gave birth to the McMahon Line This volume critically examines the legacy of the 1914 Convention and explores its relevance in scholarly discourse about the status of Tibet and Sino Indian relations more than a hundred years later The book discusses the significance of the Simla Convention both in terms of the geopolitics of boundaries as well as the people and the liminal borderlands they occupy

encapsulating the culture and diversity of the trans Himalayan regions The book explicates how colonial legacies namely the 1914 Simla Convention have become virtual straitjackets hardening the positions on the boundaries between India and China It also looks at the debilitating consequences of the nation state framework on more substantial investigations of the borderlands Rich in archival material and drawing from the authors fieldwork in the Himalayan regions this book analyses muted voices of the inhabitants of the region to bring into focus the larger question of the political economic religious ecological and social life of the Himalayan peoples which has enormous implications for both India and China This volume will be of interest to students of history international relations sociology strategic studies Asian studies and anthropology

Dealing with Diversity Domenico Melidoro, 2019-12-12 In contemporary times one of the common markers of a liberal society is the presence of a certain degree of diversity indicated by coexistence of multiple ideas beliefs and cultural practices But how does a complex and differentiated tradition of political thought like liberalism accommodate such diversity without jeopardizing social unity Formulating a response to this *Dealing with Diversity* puts forth an exhaustive theoretical classification of liberalism into comprehensive pro autonomy comprehensive pro toleration political pro autonomy and political pro toleration Through a dialectical method the author offers a critical account of the most adequate system that allows genuine commitment to diversity on the part of liberal institutions and analyses India s religious pluralism in this light The book seeks to provide a solution to the problem of ensuring a liberal peaceful and stable coexistence of different groups while giving space to community loyalties religious belongings and cultural traditions

Understanding Contemporary Indian Federalism Chanchal Kumar Sharma, Wilfried Swenden, 2018-12-07 This volume analyzes centre state dynamics in India placed against the backdrop of the election of a Narendra Modi led Bharatiya Janata BJP government to central power in 2014 It reflects on how centre state relations have been shaped by the legacy of nearly two decades of broad based coalition government at the centre and the concurrent and ongoing liberalization of the Indian economy To this purpose the volume engages with several relevant questions linked to the political economy of Indian federalism and its ability to manage ethno linguistic difference Did liberalization strengthen the economic or political autonomy of the Indian states What impact did party system change have on the capacity of parties in central government to influence the actions of state governments How did party system change and liberalization influence the fiscal and financial autonomy of the states and the capacity of the centre in planning and social development Did both processes strengthen the autonomy of Chief Ministers in foreign policy making What are the strengths and weaknesses of Indian federalism in ethno linguistic conflict management and what do the recent split of Andhra Pradesh or the proposed formation of Bodoland tell us about the dynamics underpinning the management of ethno linguistic difference in contemporary India The chapters originally published as a special issue of *India Review*

Religious Particularism vs. Religious Universalism

Zoran Matevski, 2023-11-25 The process of globalization means that borders between societies are becoming less important and socio cultural developments in certain societies are increasingly influenced by events from other parts of the world This creates two opposing social effects On the one hand there is a risk of clashes between different religions which are present within a social community On the other hand these close contacts among different religions may diminish differences among them and thus reduce tensions and conflicts This book explores the conflict between particularism and universalism Particularism emphasizes the importance of the characteristics of particular social groups ethnic cultural religious and regional Unlike particularism universalism emphasizes the importance of similarities among people and systems of values in individual societies The authors in this collection address some of the important issues at the interface of particularism and universalism including the role of religion as a mitigator of the influence of global processes fundamentalism as a form of collective identity and the idea of ecumenism and neo ecumenism as myth or reality An important collection for scholars and researchers in religion and faith politics and globalization

Negotiating Cultural Diversity in Afghanistan

Omar Sadr, 2020-01-09 This book analyses the problematique of governance and administration of cultural diversity within the modern state of Afghanistan and traces patterns of national integration It explores state construction in twentieth century Afghanistan and Afghan nationalism and explains the shifts in the state s policies and societal responses to different forms of governance of cultural diversity The book problematizes liberalism communitarianism and multiculturalism as approaches to governance of diversity within the nation state It suggests that while the western models of multiculturalism have recognized the need to accommodate different cultures they failed to engage with them through intercultural dialogue It also elaborates the challenge of intra group diversity and the problem of accommodating individual choice and freedom while recognising

group rights and adoption of multiculturalism The book develops an alternative approach through synthesising critical multiculturalism and interculturalism as a framework on a democratic and inclusive approach to governance of diversity A major intervention in understanding a war torn country through an insider account this book will be of great interest to scholars and researchers of politics and international relations especially those concerned with multiculturalism state building nationalism and liberalism as well as those in cultural studies history Afghanistan studies South Asian studies Middle East studies minority studies and to policymakers The Becoming of a Hero Pradnya Bivalkar, 2023-12-14 Identity conflicts a prominent feature of our times a phenomenon of belonging somewhere yet belonging nowhere are increasingly finding their way into cinema This book looks at the representations of identity conflicts in India on the canvas of Indian cinema connecting them with broader socio political developments in contemporary India Starting with the historical background of how political developments in Europe like the emergence of Nation states secularism modernity influenced socio political developments in India in the past century the book looks at how those developments have shaped modern India While looking at the cinematic representations of a variety of identity conflicts through the lens of cultural and political analysis it provides insights into how the construct of an Identity and the inherent conflicts associated with it evolve and manifest themselves through the medium of a film
