

Aviation Security Manual (Doc 8973 – Restricted)

The ICAO Aviation Security Manual (Doc 8973 – Restricted) assists

Member States in implementing Annex 17 to the Chicago Convention by providing guidance on how to apply its Standards and Recommended Practices (SARPs). Annex 17 and Doc 8973 are constantly being reviewed and amended in light of new threats and technological developments that have a bearing on the effectiveness of measures designed to prevent acts of unlawful interference.

New and updated guidance material on areas such as unpredictability, behaviour detection techniques, landside security, and screening of persons other than passengers have been incorporated in this version.

Existing guidance material has also been reviewed in order to better address the evolving threat to civil aviation, and includes updates on, inter alia, dangerous goods awareness training, screening technology and equipment, screening of vehicles and supplies, air cargo and mail secure supply chain measures, and threat and risk assessment methodology.

Abeyratne, 2018-12-13 Published in 1998 The various conventions which apply to the subject of unlawful interface with civil aviation have proved effective only to the extent of nurturing existing values of international law as they are restrictively perceived through the parameters of air law This book examines the offence of unlawful interference with international civil aviation and analyses critically the legal and regulatory regime that applies thereto with a view to recommending measures that are calculated to infuse a new approach to the problem Emphasis is laid throughout the work on action which may be taken to alleviate the problem of unlawful interference Its conclusion incorporates various steps that can be taken towards achieving this objective The author focuses on the core of the problem which has effectively precluded significant progress into inroads that would curb the threat terrorism in aviation the attitude of the international community The book therefore examines in limine the fundamental role of international law in the light of the United Nations Congress of International Public Law of March 1995 and its effect on international criminal law It then determines the applicable principles of State sovereignty and examines the principles of State responsibility Its main purpose is to recommend the establishment of a new philosophy of international criminal law
