development Offers a new perspective on immunity stress and psychosomatic conditions Explains how emotion is key to understanding out of body experience apparitions and other anomalous perceptions Contemporary science holds that the brain rules the body and generates all our feelings and perceptions Michael Jawer and Dr Marc Micozzi disagree They contend that it is our feelings that underlie our conscious selves and determine what we think and how we conduct our lives The less consciousness we have of our emotional being the more physical disturbances we are likely to have from ailments such as migraines fibromyalgia chronic fatigue and post traumatic stress to anomalous perceptions such as apparitions and involuntary out of body experiences Using the latest scientific research on immunity sensation stress cognition and emotional expression the authors demonstrate that the way we process our feelings provides a key to who is most likely to experience these phenomena and why They explain that emotion is a portal into the world of extraordinary perception and they provide the studies that validate the science behind telepathic dreams poltergeists and ESP The Spiritual Anatomy of Emotion challenges the prevailing belief that the brain must necessarily rule the body Far from being by products of neurochemistry the authors show that emotions are the key vehicle by which we can understand ourselves and our interactions with the world around us as well as our most intriguing and perennially baffling experiences [A Woman's Journey to God](#) Joan Borysenko,1999 Women now make up the largest group of religious dropouts in Western society and Joan Borysenko is asking why Just as medical developments made by and for men were expected to apply to women so religions created by and for men are somehow expected to work equally well for women But the religious and ritual forms that have been shaped so much by men can be alienating to women who spend much of their lives searching for their faith Through a fresh look at old traditions case studies new rituals her own story and the stories of others Borysenko has encountered in their struggle to find God A Woman's Journey to God seeks to help women heal the anger they've felt toward their own spiritual traditions and find a way back that incorporates their needs **Embracing Uncertainty** Susan J.
