Snapshots of Great Leadership Jon P. Howell, Isaac Wanasika, 2018-10-03 *Snapshots of Great Leadership* describes leaders who have either accomplished amazing feats or brought destruction. Although the goals of these individuals were often quite different, the leadership processes they used were frequently similar. The opening chapter explains the latest theories of leadership. Each leader snapshot adds an important reality check to the theories and models described in most introductory leadership textbooks, making this a key text for students taking leadership courses. This new edition features additional women and international leaders, a new You Decide section, and a Conclusion that clarifies the differences between good and bad leaders.

Street Nelson Mwangi, 2016-04-04 You will never live a happy life, leave alone achieve your dreams and reach your destiny if you fail to find your purpose in life. Every page of this book will help you to not only find your identity but also become conversant about the tenacity you have towards achieving your dream. This discovery will subject you to a splendid life of purpose and passion until you get to your destiny. This book is for teens and young adults who are looking forward to rise above their fears, depart from mediocrity, and effect a complete transformation and efficacy of their lives by first realizing who they are and finding their God-given purpose in life before they embark on a life journey with a sole purpose of becoming successful in all areas of their lives if they adhere to their purpose and live their passion.

Parents: As you embark on a venture to nurture your teens' life, this book will enhance your parenting acumen and help you to undertake your parenting responsibility of inculcating your teens and young adults with the moral responsibilities that they need in order to always make positive decisions, not worth regrets in their present and future lives. Since empowerment is a very vital act of mentorship that fosters self-identity and ameliorates an individual's quality of life, ignorance is bliss only when the knowledge of God is not involved. It is through our relationship with God that we come to find our purpose, gain confidence, become courageous, and suppress our fears in life as we progress towards our destiny. As we seek to find our God-mandated purpose in our lives, it is very imperative to know that life comes in phases where victory of your present stage invigorates your progress in the next stage. Nevertheless, our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure. It is our light, not our darkness, that most frightens us. Most of the times we ask ourselves, who am I to be brilliant, gorgeous, talented, and successful? Actually, who are you not to be? You are a child of God. Your constrained thinking does not serve or impact the world. Your life is not a mistake. Every human being has a purpose which should dictate him or her to live a purpose-driven life. We were born to make manifest the glory of God that is within us. It is not just in some of us; it is in everyone. As we let our own light shine, we unconsciously give others permission to follow suit. As we are emancipated from our own fear, our presence and perseverance automatically emancipates others.

The Psychology of Social Networking Vol.1 Giuseppe Riva,Brenda K. Wiederhold,Pietro

Cipresso,2015-01-01 Using a novel approach to consider the available literature and research this book focuses on the psychology of social media based on the assumption that the experience of being in a social media has an impact on both our identity and social relationships In order to be online an individual has to create an online presence they have to share

information about themselves online This online self is presented in different ways with diverse goals and aims in order to engage in different social media activities and to achieve desired outcomes Whilst this may not be a real physical presence that physicality is becoming increasingly replicated through photos video and ever evolving ways of defining and describing the self online Moreover individuals are using both PC based and mobile based social media as well as increasingly making use of photo and video editing tools to carefully craft and manipulate their online self This book therefore explores current debates in Cyberpsychology drawing on the most up to date theories and research to explore four main aspects of the social media experience communication identity presence and relationships In doing so it considers the interplay of different areas of psychological research with current technological and security insight into how individuals create manipulate and maintain their online identity and relationships The social media are therefore at the core of every chapter with the common thread throughout being the very unique approach to considering diverse and varied online behaviours that may not have been thus far considered from this perspective It covers a broad range of both positive and negative behaviours that have now become integrated into the daily lives of many westernised country s Internet users giving it an appeal to both scholarly and industry readers alike
