

AXIS M11 Network Camera Series

Compact and affordable high-resolution cameras for professional surveillance.

- > Excellent image quality
- > Multiple H.264 streams
- > Power over Ethernet
- > Pixel counter
- > Outdoor-ready models

AXIS M11 Series includes both indoor and outdoor-ready fixed cameras, which offer professional and cost-effective fixed cameras suitable for a wide range of video surveillance locations, such as retail stores and service stations, as well as libraries and other buildings.

AXIS M11 Network Camera Series offers excellent image quality, where progressive scan provides crisp and clear images from both illuminated and low-light areas. AXIS M11 Series ranges from SVGA-resolution cameras up to 1-megapixel cameras, which also provide HDTV 720p video at full frame rate. AXIS M1113 and AXIS M1114 are available in both indoor and "E" outdoor-ready versions.

Multiple H.264 streams, as well as Motion JPEG streams, can be provided at full frame rate, or each stream can be individually optimized for different quality requirements and bandwidth constraints.

Power over Ethernet supplies power to the camera via the network, eliminating the need for power cables and reducing installation costs. The outdoor-ready models are made of UV resistant polycarbonate and require no additional heater.

The pixel counter helps the installer verify that the pixel resolution of an object or face fulfills regulatory or specific customer requirements, for example, for facial identification purposes.
