Committee on Energy and Commerce. Subcommittee on Telecommunications and the Internet,2001 Point of Sale Daniel Herbert,Derek Johnson,2019-12-13
Point of Sale offers the first significant attempt to center media retail as a vital component in the study of popular culture It brings together fifteen essays by top media scholars with their fingers on the pulse of both the changes that foreground retail in a digital age and the history that has made retail a fundamental part of the culture industries The book reveals why retail matters as a site of transactional significance to industries as well as a crucial locus of meaning and interactional participation for consumers In addition to examining how industries connect books DVDs video games lifestyle products toys and more to consumers it also interrogates the changes in media circulation driven by the collision of digital platforms with existing retail institutions By grappling with the contexts in which we buy media Point of Sale uncovers the underlying tensions that define the contemporary culture industries **Configuring the Field of Character and Entertainment Licensing** Avi Santo,2022-12-23 This book examines the creative impact of licensing on the entertainment industry how licensing practitioners occupational disposition is formed and the role licensing professionals play in managing the circulation of intellectual property Offering a study of the spatial logics and fantasies employed by the licensing field via its annual trade show the Licensing Expo this volume investigates how space and place are instrumental in both fortifying and exposing the political economic infrastructural as well as ideological structures that constrain and enable participation in the licensing field Further supplemented by participant observation and interviews with 23 industry professionals the book explores how the licensing field understands its increasingly central role in the entertainment industry s operations and how it responds to changes in retail environments digital platforms and international markets phenomena which have required a recalibration of the field s occupational identity An exploration of an understudied aspect of the entertainment industry this book will primarily appeal to scholars within media studies and those studying media industries media franchises and media work cultures It will also be of interest to people studying consumer culture brand culture advertising organizational communication as well as fan cultures **The Commonwealth** ,1984 **Jason's November** Jason Goodwin,2022-08-05 In this short life we all need someone to save The story written on these pages cannot be untold Once you have a glimpse of someone s life it becomes a part of you for the rest of yours As long as Jason can remember he s had terrible dreams There is so much about his young life that he can t seem to remember At times his life is like a dream where he s not fully awake or

fully asleep either He decided to become a doctor and has been studying medicine and clinical trials in search for the cure for cancer He s been on the bedside of too many loved ones taking their last breaths fighting this terrible illness He has taken it upon himself to be the one who discovers the cure or die trying As he closes in on the cure his young family could be in jeopardy of the very same illness As you follow his broken memories and terrible dreams the journey his life takes could be a sad one You can t unread his story Each and every child that we lose to abortion leaves a mother and a world that will always remain incomplete How valuable is life to you
