Accounting
An Asian Edition
Second Edition

Fung • Sudya • Cheong • Fadhlina • Tan

This revised Asian edition is an adaptation of the widely used Accounting, 20th edition by Warren, Reeve and Fess. Lecturers who have many years of experience teaching accounting have adapted it.

The book is tailored for use in a first-year course on basic accounting principles. It is written from a sole proprietorship perspective and covers the complete accounting cycle and important accounting areas like cash, receivables, inventories and fixed assets.

Local accounting practices are taught in this text. Local businesses have also been included in the text so that students can relate to the material better. The text is also written in a manner Asian students will find easy to read and understand.

"Accounting is a dynamic subject, but with this text, written in a user-friendly manner, it helps understanding of book-keeping and double-entry principles easier, thereby making the study of accounting more interesting and enjoyable."

Dr. Ernest Kim
Partner, Deloitte & Touche LLP
Vice-President, Institute of Certified Public Accountants of Singapore

"Accounting: An Asian Edition is useful reading for anyone seeking to learn the principles of accounting. It is written in a style that is easy to follow, and brings in good perspectives of local situations."
