Nursery Manual for Native Plants R. Kasten Dumroese,Tara Luna,Thomas D. Landis,2009 In 2001 the Forest Service U S Department of Agriculture USDA through its Virtual Center for Reforestation Nurseries and Genetics Resources RNGR invited Native Americans from across the United States to attend the Western Forest and Conservation Nursery Association annual meeting About 25 tribal members representing 20 tribes attended the meeting at Fort Lewis College in Durango Colorado The following year a similar meeting was held in Olympia Washington and tribal members initiated a Tribal Nursery Council and requested that RNGR facilitate the organization During 2003 RNGR requested information from 560 tribes across the United States seeking specific information on tribes needs for native plants facilities training and so on Results from the responding 77 tribes were incorporated into the Tribal Nursery Needs Assessment Based on the results of that questionnaire and input from tribal members attending the 2003 Intertribal Nursery Council meeting in Coeur d Alene Idaho it was agreed that a nursery handbook was needed That fall planning began for writing the manual loosely based on Agriculture Handbook 674 The Container Tree Nursery Manual but with special attention to the uniqueness of Native American cultures

Application of Anti-manipulation Law to EU Wholesale Energy Markets and Its Interplay with EU Competition Law Huseyin Cagri Corlu,2018-06-05 In the course of energy liberalisation electricity and natural gas contracts have been separated from physical delivery and these contracts are now traded as commodities in multilateral trading facilities Although designed to render energy trading standardised and efficient this system raises serious questions as to whether

existing regulatory and antitrust provisions are sufficient to address market abuses that cause imbalances in demand and supply The European Union's EU's Regulation on Wholesale Energy Market Integrity and Transparency REMIT adopted to combat such market manipulation is still lacking in significant case law to bolster its effectiveness Addressing this gap this invaluable book provides the first in depth analysis of market manipulation in the energy sector offering a deeply informed understanding of the new anti manipulation rules and their implementation and enforcement Focusing on practices that perpetrators employ to manipulate electricity and natural gas markets and the applicability of anti manipulation rules to combat such practices the analysis examines such issues and topics as the following factors and circumstances that determine when and what market misconduct can be subject to enforcement the European Commission's criteria to determine whether a particular market is susceptible to regulation jurisdiction of REMIT and the Market Abuse Regulation MAR with respect to the prohibitions of insider trading in financial wholesale energy markets to what extent anti manipulation rules and EU competition law may be applied concurrently and types of physical and financial instruments that market participants have employed in devising their manipulative schemes Because market manipulation is rather new in the EU context but has been prohibited and prosecuted under US law for over a century much of the case law analysis is from the United States and greatly clarifies how anti manipulation rules may be enforced A concluding chapter offers policy recommendations to mitigate legal uncertainties arising from REMIT Energy market participants such as energy producers wholesale suppliers traders transmission system operators and their counsel and legal practitioners in the field will welcome this book's extensive legal analysis and its clear demarcation of the objectives that REMIT seeks to accomplish with respect to energy market liberalisation
