Albert Einstein: A Biography Abdul Montaqim,2012-07-30 ABOUT THE BOOK Albert Einstein is regarded by many people as the greatest scientific mind in the history of the world Why Well there are many reasons but one of the most important is that his theories led directly to the creation of the atom bomb and with it the dawn of the nuclear age Not only did his work in theoretical physics in particular his famous $E=mc^2$ equation indicate that it would be possible to build a massively destructive bomb the like of which had never been seen before Einstein himself urged the United States government to go ahead and build it Most historians agree that Germany's invasion of Poland on September 1 1939 marked the beginning of World War II in Europe But about one month before that date on August 2 1939 Einstein who was living in America at the time wrote to the then President of the US Franklin Delano Roosevelt outlining the ongoing scientific breakthroughs made by Enrico Fermi and Leo Szilard that could lead to the creation of extremely powerful bombs of a new type and suggesting that the government should fund manage and speed up the progress towards such weapons In the letter Einstein explained that the key element used in these scientific chain reaction experiments was an element called uranium which would become critical to the making of the bombs in the immediate future To that end he recommended that the US government should give particular attention to securing the supply of uranium ore particularly as the US had no significant uranium mines of its own Einstein further pointed out that Germany had stopped exports from the uranium mines it owned in Czechoslovakia implying that if the US did not develop the new bombs Germany will EXCERPT FROM THE BOOK By the standards of most scientists Einstein lived a varied and interesting life living in several different countries over the course of his 76 years formulating theories that not only changed the scientific establishment but also transformed the world and getting married twice the second time to Elsa L wenthal his first cousin on his mother's side and second cousin on his father's side It was with Elsa that he emigrated to the United States in 1933 the year when the Nazis came to power in Germany under the leadership of Adolf Hitler At that time Jews were becoming increasingly targetted by the Germans The Nazi propaganda chief Joseph Goebbels declared that Jewish intellectualism is dead even as he encouraged students to organise mass public burnings of thousands of books defending their actions as their right to clean up the debris of the past Einstein was reported to be on a hit list and it was probably only

a matter of time that the Nazis came for knocking for him or worse if he had stayed in Germany But he did not He emigrated to the US at the age of 54 and stayed there for much of the rest of his life becoming an American citizen in 1940 Elsa had died several years earlier in 1936 of heart and kidney problems And Einstein did not marry again He and Elsa did not have children together but Einstein had two sons Hans and Eduard and a daughter Lieserl from his previous marriage to Mileva Maric It s unclear what exactly his marital problems were when he was Mileva but he separated from her in 1914 leaving her and their two sons in Zurich while he lived in Berlin It s also unclear what happened to their daughter as no mention is made of her anywhere During this difficult time in his life Einstein had asked Mileva for a divorce but she was reluctant or unwilling It has been reported that he promised that he would give her all the money from the Nobel Prize if she agreed to a divorce He had not won the Nobel Prize at that time but won it later in 1921 Buy the book to continue reading Follow [hyperink on Twitter](#)

The Biography Book Daniel S. Burt, 2001-02-28 From Marilyn to Mussolini people captivate people A E s Biography best selling autobiographies and biographical novels testify to the popularity of the genre But where does one begin Collected here are descriptions and evaluations of over 10 000 biographical works including books of fact and fiction biographies for young readers and documentaries and movies all based on the lives of over 500 historical figures from scientists and writers to political and military leaders to artists and musicians Each entry includes a brief profile autobiographical and primary sources and recommended works Short reviews describe the pertinent biographical works and offer insight into the qualities and special features of each title helping readers to find the best biographical material available on hundreds of fascinating individuals *Biographies in the History of Physics* Christian Forstner, Mark Walker, 2020-07-22 This book sheds new light on the biographical approach in the history of physics by including the biographies of scientific objects institutions and concepts What is a biography Can biographies also be written for non human subjects like scientific instruments institutions or concepts The respective chapters of this book discuss these controversial questions using examples from the history of physics By approaching biography as metaphor it transcends the boundaries between various perspectives on the history of physics and enriches our grasp of the past

Biographies of Scientists Roger Smith, 1998 Identifies over 500 sources of information about the lives of scientists for young and adult general readers and for scholars Entries ranging from a quarter to a half page in length explain briefly what the subjects achieved worthy of biography as well as describing the work in some detail The works cited include books encyclopedias and periodicals and both biography and autobiography The arrangement is by discipline the social sciences are not included with indexes by author and subject scientist Annotation copyrighted by Book News Inc Portland OR

Embracing the Tune of Appearance: An Emotional Symphony within **Albert Einstein History Maker Biographies**

In a world taken by monitors and the ceaseless chatter of quick connection, the melodic elegance and mental symphony created by the written word frequently fade in to the backdrop, eclipsed by the relentless noise and disturbances that permeate our lives. But, situated within the pages of **Albert Einstein History Maker Biographies** a charming literary prize full of natural feelings, lies an immersive symphony waiting to be embraced. Constructed by an outstanding musician of language, that interesting masterpiece conducts visitors on a mental journey, well unraveling the hidden tunes and profound affect resonating within each cautiously crafted phrase. Within the depths of this emotional review, we shall examine the book is key harmonies, analyze its enthralling publishing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
